

Review Form 1.7

Journal Name:	Journal of Advances in Mathematics and Computer Science
Manuscript Number:	Ms_JAMCS_115758
Title of the Manuscript:	Construction of Twenty-five Points Second Order Rotatable Design in Three Dimensions using Trigonometric functions.
Type of the Article	

PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
<p>Compulsory REVISION comments</p> <p>1. Is the manuscript important for scientific community? (Please write few sentences on this manuscript)</p> <p>2. Is the title of the article suitable? (If not please suggest an alternative title)</p> <p>3. Is the abstract of the article comprehensive?</p> <p>4. Are subsections and structure of the manuscript appropriate?</p> <p>5. Do you think the manuscript is scientifically correct?</p> <p>6. Are the references sufficient and recent? If you have suggestion of additional references, please mention in the review form.</p> <p>(Apart from above mentioned 6 points, reviewers are free to provide additional suggestions/comments)</p>	<p>Yes, this research on designing experiments is useful in the advancement of scientific practices.</p> <p>Yes. The title is apt for the given work.</p> <p>Yes, the abstract gives a comprehensive idea about the work done.</p> <p>The subsections are appropriate.</p> <p>Yes, the work done in the manuscript seems to be scientifically correct.</p> <p>In my opinion, the authors can cite a few state-of-the-art research papers too.</p>	
<p>Minor REVISION comments</p> <p>1. Is language/English quality of the article suitable for scholarly communications?</p>	<p>The language in the manuscript is professional and fit for scholarly articles. However, I would like to bring to your notice the following:</p> <ol style="list-style-type: none"> 1. Page numbers are a must for all articles. It could also help the review process. 2. Punctuation marks are missing in a few places. Please recheck. 3. Spaces between lines should be uniform in all pages/ sections. For example, the text before and after equation 18. 	
<p>Optional/General comments</p>	<p>A mathematical article is best written in LateX. Although I would not insist on it here, it is a suggestion to the authors for their future works.</p>
