Please write a few sentences regarding the importance of this manuscript for the scientific community. Why do you like (or dislike) this manuscript? A minimum of 3-4 sentences may be required for this part.	I'm with the opinion that this manuscript is important in the sense that, a lot of amendment needs to be done to balance the underrepresentation of the female gender thereby giving them an opportunity to display their quota.	
Is the title of the article suitable? (If not please suggest an alternative title)	It's suitable	
Is the abstract of the article comprehensive? Do you suggest the addition (or deletion) of some points in this section? Please write your suggestions here.	The abstract is quite catchy and well captured	
Are subsections and structure of the manuscript appropriate?	Yes, but more reviews needed to be added as part of empirical literatures	
Please write a few sentences regarding the scientific correctness of this manuscript. Why do you think that this manuscript is scientifically robust and technically sound? A minimum of 3-4 sentences may be required for this part.	Hence, this manuscript has evidences of both recent and related views including years, based on my opinion it's scientifically proven and tested. The method used for the analysis needs to be recasted better still additional methods should be included. But it's quite okay if dual method will be used to make it different.	
Are the references sufficient and recent? If you have suggestions of additional references, please mention them in the review form.	Yes, they're recent but more sufficient references needs to be added as said earlier on literature reviews above.	
Minor REVISION comments Is the language/English quality of the article suitable for scholarly communications?	The languages are very okay simple and precise. Very easy to understand.	
Optional/General comments	It's very important that this manuscript is coming at the right time. The ideas people tends to have towards the opposite gender is quite worrisome, however this script will shed more emphasis on the difference perceived by people regarding the female gender
