

### Review Form 3

Journal Name:	<a href="#">Journal of Advances in Biology &amp; Biotechnology</a>
Manuscript Number:	Ms_JABB_124980
Title of the Manuscript:	<b>From Waste to Best: Biotechnological Approaches for Sustainable Development</b>
Type of the Article	<b>Review Article</b>

#### **PART 1:** Review Comments

<u>Compulsory</u> REVISION comments	Reviewer's comment	Author's Feedback <i>(Please correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)</i>
<b>Please write a few sentences regarding the importance of this manuscript for the scientific community. Why do you like (or dislike) this manuscript? A minimum of 3-4 sentences may be required for this part.</b>	As the world's population is increases day by day there is increase in demand and supply also. This article is need of hour to emphasis on regeneration of wealth (bio based products) from waste through biological or organic way to reduce the chemical and fertilizer load in the environment for sustainable development.	
<b>Is the title of the article suitable? (If not please suggest an alternative title)</b>	<b>Yes- Suitable</b>	
<b>Is the abstract of the article comprehensive? Do you suggest the addition (or deletion) of some points in this section? Please write your suggestions here.</b>	<b>The word number of abstract is low and needs addition of informative biotechnological approach in waste management.</b>	
<b>Are subsections and structure of the manuscript appropriate?</b>	<b>Yes</b>	
<b>Please write a few sentences regarding the scientific correctness of this manuscript. Why do you think that this manuscript is scientifically robust and technically sound? A minimum of 3-4 sentences may be required for this part.</b>	The Manuscript is scientifically robust as it has a direct impact on environment. The author has described the biotechnological approaches for waste management which are beneficial to environment and has positive impact on recycle of waste into beneficial products. Thus, this review focuses on utilization of several waste material and beneficial microorganisms to generate human utilization bio-based harvests which lead to sustainable development.	
<b>Are the references sufficient and recent? If you have suggestions of additional references, please mention them in the review form.</b>	<b>Needs more at least more 4-5 reference of last 5 years (recent published articles/research papers etc).</b>	
<u>Minor</u> REVISION comments <b>Is the language/English quality of the article suitable for scholarly communications?</b>	Yes	
<u>Optional/General</u> comments	There is need of addition in abstract and conclusion with future prospective in Manuscript.	

**Review Form 3**

**PART 2:**

	<b>Reviewer's comment</b>	<b>Author's comment</b> <i>(if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)</i>
<b>Are there ethical issues in this manuscript?</b>	<i>(If yes, Kindly please write down the ethical issues here in details)</i>	

**Reviewer Details:**
