

Review Form 3

Journal Name:	<u>Journal of Geography, Environment and Earth Science International</u>
Manuscript Number:	Ms_JGEESI_124877
Title of the Manuscript:	Evaluating Seasonal Dynamics of Water Quality and Embankment Soil along the Gorai River in Kushtia, Bangladesh
Type of the Article	Original Research Article

Review Form 3

PART 1: Review Comments

<u>Compulsory</u> REVISION comments	Reviewer's comment	Author's Feedback <i>(Please correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)</i>
Please write a few sentences regarding the importance of this manuscript for the scientific community. Why do you like (or dislike) this manuscript? A minimum of 3-4 sentences may be required for this part.	Both the water and soil are vital resources for the sustenance of the life as well as for agricultural purposes. Any form of degradation in terms of quality or quantity could have comprehensive impact on them. The study was carried to throw some light on these factors and has importance for the scientific community.	
Is the title of the article suitable? (If not please suggest an alternative title)	Yes, the title is suitable for the manuscript.	
Is the abstract of the article comprehensive? Do you suggest the addition (or deletion) of some points in this section? Please write your suggestions here.	The article abstract is comprehensive, but there is further scope of writing the abstract with the sub-heads in methodology, findings and conclusion.	
Are subsections and structure of the manuscript appropriate?	Yes, subsections of the manuscript are suitable and appropriate	
Please write a few sentences regarding the scientific correctness of this manuscript. Why do you think that this manuscript is scientifically robust and technically sound? A minimum of 3-4 sentences may be required for this part.	The manuscript is scientifically robust and technically sound, the study has importance from the environment point of view as it throws light on the seasonal dynamics of water quality that could affect the life sustainability. As suggested there is further scope of corrections in abstract to make it more appealing.	
Are the references sufficient and recent? If you have suggestions of additional references, please mention them in the review form. -	The references are sufficient but few references are very old, but that could be justified with the requirement of the manuscript	
<u>Minor</u> REVISION comments Is the language/English quality of the article suitable for scholarly communications?	yes	
<u>Optional/General</u> comments	Overall, the manuscript could be accepted for the publication with little modifications in alignment of the paper in line with the journal's guideline.
