

**Editor's Comment:**

I highly recommend this manuscript  
is suitable for publication to your reputed journal.

The following some typographical errors must be corrected before publication:

1. After Eq. (1) and Eq. (2), it is better to write where, instead of where:
2. It is better to include one more recent published relevant paper in reference section.

**Editor's Details:**

Prof. Md. Alal hosen  
Rajshahi University of Engineering and Technology, Bangladesh.
