

### Review Form 3

Journal Name:	<a href="#">Asian Journal of Chemical Sciences</a>
Manuscript Number:	Ms_AJOCS_124822
Title of the Manuscript:	Determination of the content of polyphenols, flavonoids, tannins, mineral elements and antioxidant activity of <i>Anacardium occidentale</i> (Anacardiaceae) almonds from central Côte d'Ivoire
Type of the Article	Original Research Paper

## Review Form 3

### PART 1: Review Comments

<u>Compulsory</u> REVISION comments	Reviewer's comments	Author's Feedback (Please correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Please write a few sentences regarding the importance of this manuscript for the scientific community. Why do you like (or dislike) this manuscript? A minimum of 3-4 sentences may be required for this part.	The manuscript has lot of confusion regarding the plant material selected for the study; somewhere it is mentioned as almond and somewhere cashew nut. Both plants are different therefore it is very difficult to say about the importance of the present manuscript.	
Is the title of the article suitable? (If not please suggest an alternative title)	Title is not suitable. It is chemical profiling of plant, but important is which plant almond or cashew nut.	
Is the abstract of the article comprehensive? Do you suggest the addition (or deletion) of some points in this section? Please write your suggestions here.	No comments due to confusion in selected plant.	
Are subsections and structure of the manuscript appropriate?	No comments again due to confusion in selected plants.	
Please write a few sentences regarding the scientific correctness of this manuscript. Why do you think that this manuscript is scientifically robust and technically sound? A minimum of 3-4 sentences may be required for this part.	No comments	
Are the references sufficient and recent? If you have suggestions of additional references, please mention them in the review form.	No comments	
<u>Minor</u> REVISION comments  Is the language/English quality of the article suitable for scholarly communications?	No comments	
<u>Optional/General</u> comments	<p>The manuscript cannot be accepted for publication because-</p> <ol style="list-style-type: none"> <li>1. <i>Anacardium occidentale</i> is a member of family Anacardiaceae commonly known as cashew nuts not almond (In Hindi-Kaju).</li> <li>2. <i>Prunus dulcis</i>, <i>Prunus communis</i> etc, is a member of family Rosaceae, commonly known as almond (In Hindi Badam).</li> <li>3. In footnotes of all the tables in manuscript it is mentioned as Almond.</li> <li>4. It is very casual approach to write a manuscript and submit to a valuable journal of scientific standard.</li> <li>5. I suggest the author to consult and get check the manuscript from the senior person before submitting the Manuscript in any journal.</li> </ol> <p><b>I strongly recommend to reject such type of poor manuscript.</b></p>
