**PART 1: Review Comments**

<b>Compulsory</b> REVISION comments	<b>Reviewer's comment</b>	<b>Author's Feedback</b> (Please correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Please write a few sentences regarding the importance of this manuscript for the scientific community. Why do you like (or dislike) this manuscript? A minimum of 3-4 sentences may be required for this part.	The article is significant because it points to a major problem today when we talk about inflammatory bowel diseases, which is their occurrence at the earliest age. The epidemiology of these diseases, as well as the etiology and immunological aspects, are correctly presented. Very well presented differential diagnoses.	
Is the title of the article suitable? (If not please suggest an alternative title)	YES	
Is the abstract of the article comprehensive? Do you suggest the addition (or deletion) of some points in this section? Please write your suggestions here.	YES	
Are subsections and structure of the manuscript appropriate?	Perhaps the number of subheadings should be reduced, especially in the Therapy section.	
Please write a few sentences regarding the scientific correctness of this manuscript. Why do you think that this manuscript is scientifically robust and technically sound? A minimum of 3-4 sentences may be required for this part.	The manuscript should be technically fixed, the numbering of references is not done completely correctly. Arrange the references in order of occurrence in the text of the manuscript. Table 2 is a picture, maybe it should be done in table form.	
Are the references sufficient and recent? If you have suggestions of additional references, please mention them in the review form.	YES	
<b>Minor</b> REVISION comments	YES	
Is the language/English quality of the article suitable for scholarly communications?		
<b>Optional/General</b> comments	The manuscript is well written, only the number of subsections should be reduced, as well as the numbering of references in the text should be corrected. Not all references are marked in the text, at least not in order of appearance.
