

Review Form 3

Journal Name:	Asian Journal of Research in Agriculture and Forestry
Manuscript Number:	Ms_AJRAF_123468
Title of the Manuscript:	Evaluation of Rhizome Propagation Methods of Lowland bamboo (<i>Oxytenanthera abyssinica</i>) in central Tigray, Northern Ethiopia
Type of the Article	Original Article

PART 1: Review Comments

Compulsory REVISION comments	Reviewer's comment	Author's Feedback <i>(Please correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)</i>
Please write a few sentences regarding the importance of this manuscript for the scientific community. Why do you like (or dislike) this manuscript? A minimum of 3-4 sentences may be required for this part.	The study focused on the rhizome propagation bamboo using different number of nodes to determine which among the treatments will have a higher survival rate. The results of the study will greatly contribute in the mass propagation of bamboo using the appropriate planting materials. This will aid in biodiversity and phytoremediation as well.	
Is the title of the article suitable? (If not please suggest an alternative title)	yes	
Is the abstract of the article comprehensive? Do you suggest the addition (or deletion) of some points in this section? Please write your suggestions here.	Abstracts must contain the objectives, methods, results and the significance of the findings. The methods in the abstract must be summarized, and focus more on the results of the study.	
Are subsections and structure of the manuscript appropriate?	yes	
Please write a few sentences regarding the scientific correctness of this manuscript. Why do you think that this manuscript is scientifically robust and technically sound? A minimum of 3-4 sentences may be required for this part.	The paper contains all the necessary parts of a scientific paper. The introduction is very comprehensive. The methods and statistical approach are appropriate. The results are congruent with the objectives of the study.	
Are the references sufficient and recent? If you have suggestions of additional references, please mention them in the review form.	Additional supporting documents/ references are necessary to support the findings in the results and discussions. There are many recent articles related on baboo propagation that can be cited by the author	
Minor REVISION comments		
Is the language/English quality of the article suitable for scholarly communications?	The writing skills of the author is good	
Optional/General comments	The research article is necessary to address the research gaps in terms of bamboo propagation.	

Review Form 3

PART 2:

	Reviewer's comment	Author's comment <i>(if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)</i>
Are there ethical issues in this manuscript?	<i>(If yes, Kindly please write down the ethical issues here in details)</i>
