EDITORIAL COMMENT'S on revised paper (if any)	Authors' response to editor's comments
<p>1. Introduction. There is no purpose of the study.</p> <p>2. Materials and methods of research. Provide information on the period of obtaining and collecting honey. Also the type of honey.</p> <p>3. Conclusion. There are no specific results of the study. The results should be described and assessed.</p> <p>Correction of comments will improve the quality of the manuscript and interest in it among readers.</p>	<p>Thanks to all comments. I have just to do some corrections. So, the conclusion answers the questions posed in the results section and is therefore a summary. In the experimental part, we found that AF honey heals faster than MZ honey.</p>
