**PART 1: Review Comments**

Compulsory REVISION comments	Reviewer's comment	Author's Feedback <i>(Please correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)</i>
<p>Please write a few sentences regarding the importance of this manuscript for the scientific community. Why do you like (or dislike) this manuscript? A minimum of 3-4 sentences may be required for this part.</p>	<p><b>Review Comments</b></p> <p><b>Title:</b> The Role of Nursing During the COVID-19 Pandemic</p> <p><b>Journal:</b> Asian Journal of Research in Medical and Pharmaceutical Sciences  <b>Manuscript no:</b> Ms_AJRIMPS_125037  <b>Manuscript Type:</b> Review Paper</p> <p><b>Article:</b> "The Role of Nursing During the COVID-19 Pandemic"  <b>Manuscript no:</b> Ms_AJRIMPS_125037</p> <p><b>Overall Assessment:</b> The review article provides a comprehensive overview of the multifaceted role of nurses during the COVID-19 pandemic. It effectively highlights the critical contributions of nurses in patient care, infection control, and emotional support. The article also delves into the significant ethical challenges nurses encounter, such as resource allocation, personal risk, patient autonomy, and psychological stress.</p> <p><b>Strengths:</b></p> <ul style="list-style-type: none"> <li>• <b>Comprehensive Coverage:</b> The article provides a thorough examination of various aspects of nursing care during the pandemic, including direct patient care, infection control, emotional support, and ethical dilemmas.</li> <li>• <b>Clear Structure:</b> The article is well-organized, with a clear introduction, body sections, and conclusion. The information is presented logically and coherently.</li> <li>• <b>Relevant Literature:</b> The article cites relevant literature to support its claims and provide context.</li> <li>• <b>Ethical Considerations:</b> The article effectively addresses the ethical challenges nurses face, highlighting their importance and the need for appropriate strategies to address them.</li> <li>• <b>Practical Implications:</b> The article offers practical recommendations for addressing ethical challenges, such as developing ethical guidelines, providing support systems, and ensuring adequate protective measures.</li> </ul> <p><b>Weaknesses:</b></p> <ul style="list-style-type: none"> <li>• <b>Lack of Depth in Some Areas:</b> While the article provides a broad overview of nursing care during the pandemic, it could benefit by exploring certain areas, such as the specific challenges faced by nurses in different healthcare settings (e.g., hospitals, long-term care facilities) or the impact of cultural factors on nursing practices.</li> <li>• <b>Limited Discussion of International Perspectives:</b> While the article acknowledges the global</li> </ul>	

**Review Form 3**

	<p>impact of the pandemic, it could benefit from a more in-depth discussion of international perspectives, including variations in nursing practices, ethical guidelines, and healthcare systems across different countries.</p> <p>• <b>Potential for Bias:</b> The article could be strengthened by acknowledging potential biases or limitations in the literature reviewed. For example, the focus on English-language literature might not capture the full spectrum of experiences and perspectives from all regions.</p> <p><b>Structured Suggestion for Weaknesses and Strong Points:</b></p> <table border="1"> <thead> <tr> <th>Weakness</th> <th>Strong Point</th> <th>Suggested Improvement</th> </tr> </thead> <tbody> <tr> <td>Lack of depth in Triage protocol</td> <td>Comprehensive coverage</td> <td>Consider conducting a more in-depth analysis of specific aspects of nursing care or international perspectives.</td> </tr> <tr> <td>Limited discussion of international perspectives</td> <td>Clear structure</td> <td>Incorporate more international examples and case studies to illustrate the global impact of the pandemic.</td> </tr> </tbody> </table> <p>Page 1 of 2</p> <p>Potential for bias</p> <p>Relevant literature</p> <p>Acknowledge potential biases or limitations in the literature reviewed and consider including a broader range of sources.</p> <p><b>Overall Recommendation:</b> Based on the strengths and weaknesses identified, I recommend accepting the article for publication in the Asian Journal of Research in Medical and Pharmaceutical Sciences. The article contributes to the literature on nursing care during the COVID-19 pandemic and offers important insights for future research and practice. However, the suggested improvements could enhance the article's impact and relevance.</p> <p><b>Decision: Accept after the required improvements</b></p> <p>Page 2 of 2</p>	Weakness	Strong Point	Suggested Improvement	Lack of depth in Triage protocol	Comprehensive coverage	Consider conducting a more in-depth analysis of specific aspects of nursing care or international perspectives.	Limited discussion of international perspectives	Clear structure	Incorporate more international examples and case studies to illustrate the global impact of the pandemic.	
Weakness	Strong Point	Suggested Improvement									
Lack of depth in Triage protocol	Comprehensive coverage	Consider conducting a more in-depth analysis of specific aspects of nursing care or international perspectives.									
Limited discussion of international perspectives	Clear structure	Incorporate more international examples and case studies to illustrate the global impact of the pandemic.									
<p><b>Is the title of the article suitable? (If not please suggest an alternative title)</b></p>											

**Review Form 3**

Is the abstract of the article comprehensive? Do you suggest the addition (or deletion) of some points in this section? Please write your suggestions here.		
Are subsections and structure of the manuscript appropriate?		
Please write a few sentences regarding the scientific correctness of this manuscript. Why do you think that this manuscript is scientifically robust and technically sound? A minimum of 3-4 sentences may be required for this part.		
Are the references sufficient and recent? If you have suggestions of additional references, please mention them in the review form.		
<u>Minor</u> REVISION comments		
Is the language/English quality of the article suitable for scholarly communications?		
<u>Optional/General</u> comments		

**PART 2:**

	<b>Reviewer's comment</b>	<b>Author's comment</b> (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Are there ethical issues in this manuscript?	<i>(If yes, Kindly please write down the ethical issues here in details)</i>
