

Review Form 3

Journal Name:	Asian Journal of Research and Reports in Gastroenterology
Manuscript Number:	Ms_ AJRRGA_125504
Title of the Manuscript:	Comparative Analysis of Adverse Drug Reactions of Anti-Gastroenterology Agents in Patients with Comorbidities
Type of the Article	Review Article

Review Form 3

PART 1: Review Comments

Compulsory REVISION comments	Reviewer's comment	Author's Feedback (Please correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Please write a few sentences regarding the importance of this manuscript for the scientific community. Why do you like (or dislike) this manuscript? A minimum of 3-4 sentences may be required for this part.	This manuscript is valuable to the scientific community as it highlights the comparative risks of adverse drug reactions (ADRs) associated with anti-gastroenterology agents, particularly in patients with comorbidities. Understanding these risks is crucial for improving patient safety and guiding clinical decision-making. By addressing this issue, the study contributes to more informed treatment approaches and better management of drug-related complications.	
Is the title of the article suitable? (If not please suggest an alternative title)	Yes	
Is the abstract of the article comprehensive? Do you suggest the addition (or deletion) of some points in this section? Please write your suggestions here.	Yes	
Are subsections and structure of the manuscript appropriate?	Yes	
Please write a few sentences regarding the scientific correctness of this manuscript. Why do you think that this manuscript is scientifically robust and technically sound? A minimum of 3-4 sentences may be required for this part.	NA	
Are the references sufficient and recent? If you have suggestions of additional references, please mention them in the review form. -	No add some more reference	
Minor REVISION comments Is the language/English quality of the article suitable for scholarly communications?	Few English and grammar correction require	
Optional/General comments	<p><u>Editorial Comments (This section is reserved for the comments from journal editorial office and editors):</u></p> <p>The manuscript presents a valuable analysis; however, there are some areas where English grammar and phrasing could be improved for clarity and flow. For instance, certain sentences could be restructured to avoid repetition and improve readability. Additionally, attention should be given to verb tense consistency and the use of prepositions to ensure precision in language. Overall, refining the text will enhance the manuscript's impact and readability for the scientific community.</p>
