

Review Form 3

Journal Name:	International Journal of Plant & Soil Science
Manuscript Number:	Ms_IJPSS_124509
Title of the Manuscript:	Effect of Bio-Stimulants on Quality and Soil Health of Garlic (<i>Allium sativum</i> L.)
Type of the Article	Original Research Article

PART 1: Review Comments

<u>Compulsory</u> REVISION comments	Reviewer's comment	Author's Feedback <i>(Please correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)</i>
Please write a few sentences regarding the importance of this manuscript for the scientific community. Why do you like (or dislike) this manuscript? A minimum of 3-4 sentences may be required for this part.	Biostimulants are increasingly used in garlic cultivation to enhance growth, improve yields, and boost the overall health of plants. Biostimulants have shown promising results in improving productivity and crop resilience, especially in challenging conditions, in garlic farming. Hence, the present study is beneficial to the scientific community.	
Is the title of the article suitable? (If not please suggest an alternative title)	If possible try some titles like "effect of Bio-stimulants on quality of garlic cultivated soil" since focus is on enhancing properties of soil rather than,garlic (which is not clear in the title).	
Is the abstract of the article comprehensive? Do you suggest the addition (or deletion) of some points in this section? Please write your suggestions here.	In the second sentence,the Author could have avoided the repetition of words like soil drenching by writing "soil drenching using humic acid was done at concentrations of 4g/L,6g/L and 8g/L." Avoid grammatical errors also. It is soil drenching using humic acid. Avoid use of symbols like @ in technical writings.	
Are subsections and structure of the manuscript appropriate?	Yes	
Please write a few sentences regarding the scientific correctness of this manuscript. Why do you think that this manuscript is scientifically robust and technically sound? A minimum of 3-4 sentences may be required for this part.	All data is correctly recorded, analyzed, and represented in the form of tables. The methods and experiments described are detailed enough to allow other researchers to reproduce the study. The methods used are the best possible approaches to address the research question.	
Are the references sufficient and recent? If you have suggestions of additional references, please mention them in the review form.	All the references are relevant to the present study.	
<u>Minor</u> REVISION comments Is the language/English quality of the article suitable for scholarly communications?	Language needs improvement. Try to follow the same tense throughout the article. Avoid usage of abbreviations unless a list of abbreviations is provided.	
<u>Optional/General</u> comments	The article is fit for publication after making these minor changes	

Review Form 3

PART 2:

	Reviewer's comment	Author's comment <i>(if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)</i>
Are there ethical issues in this manuscript?	<i>(If yes, Kindly please write down the ethical issues here in details)</i>
