

Review Form 3

Journal Name:	Journal of Advances in Biology & Biotechnology
Manuscript Number:	Ms_JABB_124907
Title of the Manuscript:	Characterization of the physicochemical and energetic properties of Alchornea cordifolia leaves and fruits harvested in three regions of Côte d'Ivoire
Type of the Article	Original Research Article

Review Form 3

PART 1: Review Comments

<u>Compulsory</u> REVISION comments	Reviewer's comment	Author's Feedback (Please correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
<p>Please write a few sentences regarding the importance of this manuscript for the scientific community. Why do you like (or dislike) this manuscript? A minimum of 3-4 sentences may be required for this part.</p>	<p>Is crucial because it can unlock various benefits in health, nutrition, industry, and sustainability. The development of new products and applications that leverage its natural properties for the betterment of human health and environmental sustainability.</p>	
<p>Is the title of the article suitable? (If not please suggest an alternative title)</p>		
<p>Is the abstract of the article comprehensive? Do you suggest the addition (or deletion) of some points in this section? Please write your suggestions here.</p>	<p>The abstract should be much more clear, having each manuscript main portion. So the author must rewrite it again. The abstract should be written by one paragraph, and why you write the portion of the manuscript as a sub title like objective, result....separately?</p>	
<p>Are subsections and structure of the manuscript appropriate?</p>	<p>Somewhat good, but improvement needed. The space between the paragraphs far apart in some portion. So see it again.</p>	
<p>Please write a few sentences regarding the scientific correctness of this manuscript. Why do you think that this manuscript is scientifically robust and technically sound? A minimum of 3-4 sentences may be required for this part.</p>	<p>By focusing on specific measurable parameters and scientifically validated techniques, this research can provide valuable insights into how this plant can contribute to sustainable practices and the broader ecological system.</p>	
<p>Are the references sufficient and recent? If you have suggestions of additional references, please mention them in the review form.</p>	<p>Reference should be recent. Most of the references cited are old, even you used 1956....please revise and cite the recent again.</p>	
<p><u>Minor</u> REVISION comments</p> <p>Is the language/English quality of the article suitable for scholarly communications?</p>	<p>Yes</p>	
<p><u>Optional/General</u> comments</p>	<ul style="list-style-type: none"> - What is the reason behind, collecting the sample from different locations? I observed difference regarding the value of dry mater for instance across location, and why? Is there Varity difference? - Do Correlation analysis if possible. - Moisture content? - All the scientific name must be written by italic. Do it - What is your recommendation?
