Please write a few sentences regarding the importance of this manuscript for the scientific community. Why do you like (or dislike) this manuscript? A minimum of 3-4 sentences may be required for this part.	The manuscripts are the information resources and these are important for scholars and researchers for references and comparative studies. So, every resource and illustration are important as research itself. They ae sources of so many information.	
Is the title of the article suitable? (If not please suggest an alternative title)	Yes	
Is the abstract of the article comprehensive? Do you suggest the addition (or deletion) of some points in this section? Please write your suggestions here.	It comprehensive and I would suggest that little more details of causes of cancers and why they did study at Brazil only.	
Are subsections and structure of the manuscript appropriate?	Children of Brazil or which African country	
Please write a few sentences regarding the scientific correctness of this manuscript. Why do you think that this manuscript is scientifically robust and technically sound? A minimum of 3-4 sentences may be required for this part.	The manuscript has the study about the cancer in children. It's suggested that if they can provide little bit about the physiological difference and immunity of child with adults. And comorbidities with cancer specially for kids. about treatment since children are not physically strong as adults so what is option for them which their body can cope with.	
Are the references sufficient and recent? If you have suggestions of additional references, please mention them in the review form.	It depend based on your information sufficient or not, more references more validations.	
<b>Minor</b> REVISION comments		
Is the language/English quality of the article suitable for scholarly communications?	Yes, English is universal language,	
<b>Optional/General</b> comments	Good luck
