

Review Form 3

Journal Name:	Biotechnology Journal International
Manuscript Number:	Ms_BJI_124396
Title of the Manuscript:	A Review on Conversion of Agricultural Waste to Bioenergy: Processes and Environmental Impacts
Type of the Article	Review Article

Review Form 3

PART 1: Review Comments

Compulsory REVISION comments	Reviewer's comment	Author's Feedback (Please correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Please write a few sentences regarding the importance of this manuscript for the scientific community. Why do you like (or dislike) this manuscript? A minimum of 3-4 sentences may be required for this part.		
Is the title of the article suitable? (If not please suggest an alternative title)	Yes	
Is the abstract of the article comprehensive? Do you suggest the addition (or deletion) of some points in this section? Please write your suggestions here.	Yes	
Are subsections and structure of the manuscript appropriate?	Yes	
Please write a few sentences regarding the scientific correctness of this manuscript. Why do you think that this manuscript is scientifically robust and technically sound? A minimum of 3-4 sentences may be required for this part.	The Manuscript is scientifically relevant as it focuses on the environmental issues concerning the waste disposal, by converting the wastes that in Bioenergy. The article also discusses about the conversion technologies of biomass residues and waste to biofuels	
Are the references sufficient and recent? If you have suggestions of additional references, please mention them in the review form. -	Yes	
Minor REVISION comments Is the language/English quality of the article suitable for scholarly communications?	Yes	
Optional/General comments	<p>Section 2 is about overview of agricultural waste, its generation and disposal. This section can be strengthened by incorporating the recent statistics about the agricultural waste generated at the global and the local scale.</p> <p>Section 2 is about overview of bioenergy. The authors have mentioned first, second and third generation of biofuel. The Fourth generation should be included in the section.</p> <p>Section 3.1. Types of Biofuels should be added with diverse types of biofuels including Biomethane, Biobutanol, Biohydrogen</p> <p>Section 4 processes for conversion of agricultural waste to bioenergy should be included with Combination methods for the conversion</p>
