

Review Form 3

Journal Name:	Journal of Advances in Biology & Biotechnology
Manuscript Number:	Ms_JABB_120442
Title of the Manuscript:	Inhibitory potential of certain fungicides on <i>Pyricularia oryzae</i> Cavara
Type of the Article	

PART 1: Review Comments

<u>Compulsory</u> REVISION comments	Reviewer's comment	Author's Feedback <i>(Please correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)</i>
Please write few sentences regarding the importance this manuscript for scientific community. Why do you like (or dislike) this manuscript? Minimum 3-4 sentences may be required for this part.	This manuscript addresses a critical need in agricultural science by investigating the effectiveness of specific fungicides against <i>Pyricularia oryzae</i> , a significant pathogen affecting rice crops globally. Understanding the inhibitory potential of these fungicides is crucial for devising targeted and sustainable disease management strategies in rice cultivation. The findings presented here not only contribute to our knowledge of chemical control methods but also provide valuable insights that could potentially enhance crop yield and food security."	
Is the title of the article suitable? (If not please suggest an alternative title)	Yes, the title of the manuscript is appropriate	
Is the abstract of the article comprehensive? Do you suggest addition (or deletion) of some points in this section? Please write your suggestions here.	Abstract is comprehensive	
Are subsections and structure of the manuscript appropriate?	Only in the introduction part, other disease management strategies should not be discussed as there is no research done by the author on these disease control aspects. The only to be discussed in the topic should be fungicides having effect on the disease.	
Please write few sentences regarding the scientific correctness of this manuscript. Why do think that this manuscript is scientifically robust and technically sound? Minimum 3-4 sentences may be required for this part.	The first part of the abstract discusses the negative impacts of tricyclazole. Additionally, the study should have focused on the accumulation of residues from other selected fungicides within rice grains."	
Are the references sufficient and recent? If you have suggestion of additional references, please mention in the review form.	Sufficient	
<u>Minor</u> REVISION comments		
Is language/English quality of the article suitable for scholarly communications?	Yes	
<u>Optional/General</u> comments		

Review Form 3

PART 2:

	Reviewer's comment	Author's comment <i>(if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)</i>
Are there ethical issues in this manuscript?	<i>(If yes, Kindly please write down the ethical issues here in details)</i>
