

Review Form 3

Journal Name:	Journal of Advances in Medicine and Medical Research
Manuscript Number:	Ms_JAMMR_125078
Title of the Manuscript:	Maternal obesity and periodontitis cause increased gingival epithelium and connective tissue and reduced root resorption and alveolar bone loss in female rat offspring
Type of the Article	Original Research Article

Review Form 3

PART 1: Review Comments

Compulsory REVISION comments	Reviewer's comment	Author's Feedback <i>(Please correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)</i>
Please write a few sentences regarding the importance of this manuscript for the scientific community. Why do you like (or dislike) this manuscript? A minimum of 3-4 sentences may be required for this part.	This animal study dealt with a very elaborate topic of the association of maternal obesity and its association with periodontal diseases. I like the intent of this study as this can easily be a stepping stone to more scientific researches of this kind. The methodology used by the author is precise and the author also has a huge depth of knowledge on the subject.	
Is the title of the article suitable? (If not please suggest an alternative title)	Maternal obesity and periodontitis induce increased gingival epithelium and connective tissue, and decreased root resorption and alveolar bone loss in female rats progeny. A comparative study. P.S. Although the title you have given is satisfactory this is another option.	
Is the abstract of the article comprehensive? Do you suggest the addition (or deletion) of some points in this section? Please write your suggestions here.	The abstract is very comprehensive and there is no need of any alterations.	
Are subsections and structure of the manuscript appropriate?	The subsection and structure of the manuscript is appropriate.	
Please write a few sentences regarding the scientific correctness of this manuscript. Why do you think that this manuscript is scientifically robust and technically sound? A minimum of 3-4 sentences may be required for this part.	The manuscript is written in a very elaborate yet written in a sequential manner. It is scientifically robust and technically sound.	
Are the references sufficient and recent? If you have suggestions of additional references, please mention them in the review form.	There is sufficient amount of recent references which are clinically relevant to this study	
Minor REVISION comments		
Is the language/English quality of the article suitable for scholarly communications?	The quality of English language is quite good	
Optional/General comments		

PART 2:

	Reviewer's comment	Author's comment <i>(if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)</i>
Are there ethical issues in this manuscript?	<i>(If yes, Kindly please write down the ethical issues here in details)</i>
