

**Review Form 3**

Journal Name:	<a href="#">Journal of Scientific Research and Reports</a>
Manuscript Number:	Ms_JSRR_124623
Title of the Manuscript:	Instability analysis and decomposition of output of major oilseed crops in Rajasthan and India
Type of the Article	Original Research Article

## Review Form 3

### PART 1: Review Comments

<b>Compulsory</b> REVISION comments	<b>Reviewer's comment</b>	<b>Author's Feedback</b> (Please correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
<b>Please write a few sentences regarding the importance of this manuscript for the scientific community. Why do you like (or dislike) this manuscript? A minimum of 3-4 sentences may be required for this part.</b>	The study provides great importance in various aspects of output production or food security aspects as well. It can look into various context for the policy maker as oilseeds are the second most important of protein source. Moreover, oilseeds are also the major source of the alternative source of protein. Thus, it is vital to understand the current scenario of the area, production and productivity of oilseeds and what are the various factors which are affecting the output and how those factors affecting can be addressed and what measures could be taken to improve the output would help the policy makers to make a policy on the issues.	
<b>Is the title of the article suitable? (If not please suggest an alternative title)</b>	The title of the manuscript looks fine and no changes required.	
<b>Is the abstract of the article comprehensive? Do you suggest the addition (or deletion) of some points in this section? Please write your suggestions here.</b>	The abstract has to be written into the journal format and I would kindly, request the author's to correct it accordingly. For example, Aims, Study design, Place and duration of study, Methodology, Results and Conclusion should be mentioned according to the journal format.	
<b>Are subsections and structure of the manuscript appropriate?</b>	The structure of the manuscript looks fine.	
<b>Please write a few sentences regarding the scientific correctness of this manuscript. Why do you think that this manuscript is scientifically robust and technically sound? A minimum of 3-4 sentences may be required for this part.</b>	Kindly, check the spelling mistakes which was found in some of the pages. (1)In page no.3, kindly check the spelling of Vella and correct the formula accordingly. (2) Page no.8 Table 4; It should be produced. (3) do not write (per cent) within the bracket instead use symbols (%) and correct in accordingly in the manuscript. (4) Kindly, correct all the reference quoted into the manuscript according to the journal format in order to maintain the standard of the journal intact. (5) Kindly, convert the font of the name of the crops into italic, example., <i>soybean</i> . (6) I could not see any of the policy implication from the current study, what will the government gets benefitted from the study should be added to enhance the efficiency of the research.	
<b>Are the references sufficient and recent? If you have suggestions of additional references, please mention them in the review form.</b> :	Kindly, correct all the reference according to the journal format and kindly remove those reference which are of 2005 and 2006 and instead incorporate the references which are of the recent as this type of research has been conducted by various researchers and available reference are there.	
<b>Minor</b> REVISION comments <b>Is the language/English quality of the article suitable for scholarly communications?</b>	The overall language used in the manuscript fine except few lines and sentence which the author's can take care of if they wise to.	
<b>Optional/General</b> comments	The paper looks fine and would improve the quality of the manuscript if the necessary correction can be taken care of.
