

Review Form 3

Journal Name:	Journal of Scientific Research and Reports
Manuscript Number:	Ms_JSRR_125172
Title of the Manuscript:	A Study on Sustainable Neem Seed Collection and Utilization Practices in Selected Cluster of Tamil Nadu
Type of the Article	Original Research Article

Review Form 3

PART 1: Review Comments

<u>Compulsory</u> REVISION comments	Reviewer's comment	Author's Feedback <i>(Please correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)</i>
<p>Please write a few sentences regarding the importance of this manuscript for the scientific community. Why do you like (or dislike) this manuscript? A minimum of 3-4 sentences may be required for this part.</p>	<ol style="list-style-type: none"> 1. Conservation of Neem Resources: The study will aid in understanding sustainable neem seed collection practices, helping conserve neem populations. 2. Mitigating Seed Shortages: Insights from the study will address the challenges of reduced neem seed availability due to dieback disease in southern states. 3. Economic Support: The study will benefit local communities by promoting sustainable neem seed collection, potentially providing an additional source of income. 4. Biopesticide Industry Support: The findings will ensure a steady supply of neem seeds, crucial for the production of organic biopesticides. 	
<p>Is the title of the article suitable? (If not please suggest an alternative title)</p>	<p>Yes</p>	
<p>Is the abstract of the article comprehensive? Do you suggest the addition (or deletion) of some points in this section? Please write your suggestions here.</p>	<p>Yes</p>	
<p>Are subsections and structure of the manuscript appropriate?</p>	<p>Very appropriate</p>	
<p>Please write a few sentences regarding the scientific correctness of this manuscript. Why do you think that this manuscript is scientifically robust and technically sound? A minimum of 3-4 sentences may be required for this part.</p>	<p>This manuscript on sustainable neem seed collection and utilization practices is scientifically robust due to its comprehensive approach to addressing both ecological and economic aspects of neem seed harvesting. The study utilizes appropriate methodologies for data collection, ensuring that results are representative and relevant to the region of Tamil Nadu. Additionally, the manuscript incorporates recent challenges such as dieback disease and its impact on seed availability, making the research timely and valuable for sustainable resource management. The technical soundness is further reinforced by the clear focus on practical solutions for enhancing seed yield while minimizing environmental harm.</p>	
<p>Are the references sufficient and recent? If you have suggestions of additional references, please mention them in the review form.</p>	<p>Yes</p>	
<p><u>Minor</u> REVISION comments</p> <p>Is the language/English quality of the article suitable for scholarly communications?</p>	<p>Yes</p>	
<p><u>Optional/General</u> comments</p>	<p>-</p>
