

Review Form 3

Journal Name:	Physical Science International Journal
Manuscript Number:	Ms_PSIJ_124710
Title of the Manuscript:	CdTe-Based Thin Film Solar Cells, Application, Semiconductor, Current Opinion in Materials and Treatment Science
Type of the Article	Review Article

Review Form 3

PART 1: Review Comments

Compulsory REVISION comments	Reviewer's comment	Author's Feedback (Please correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Please write a few sentences regarding the importance of this manuscript for the scientific community. Why do you like (or dislike) this manuscript? A minimum of 3-4 sentences may be required for this part.	Please write a few sentences regarding the importance of this manuscript for the scientific community. Why do you like (or dislike) this manuscript? A minimum of 3-4 sentences may be required for this part	
Is the title of the article suitable? (If not please suggest an alternative title)	Is the title of the article suitable? (If not please suggest an alternative title) Development of CdTe-Based Thin Film Solar Cells Materials	
Is the abstract of the article comprehensive? Do you suggest the addition (or deletion) of some points in this section? Please write your suggestions here.	The manuscript will give important guide lines to prepare CdTe, CdS, ITO, ZnO thin films. The review information gives a new idea of CdS thin film deposition to increase efficiency of solar cell. It will be good if the author write some details about Cu-Ag solar cell as he mentioned the solar cell in his abstracts. The abstract is giving depth review information for further studies on the CdTe based materials. So, the abstract will help the researchers to do get new fundings.	
Are subsections and structure of the manuscript appropriate?	Subsections and structure of the manuscript are appropriate. However, if possible please add a subsection and structure of Cu-Ag solar cell. Subsections and structure of the manuscript are appropriate. However, if possible please add a subsection and structure of Cu-Ag solar cell.	
Please write a few sentences regarding the scientific correctness of this manuscript. Why do you think that this manuscript is scientifically robust and technically sound? A minimum of 3-4 sentences may be required for this part.	The CdTe thin film plays a vital role in thin film solar cell and in detector application. The information will give new pathways for the developments of the materials. The writing is significantly important to get understanding of oxygenated CdS thin films. The paper gives few thin film materials findings and that's why the article is technically sound.	
Are the references sufficient and recent? If you have suggestions of additional references, please mention them in the review form. =	Are the references sufficient and recent? If you have suggestions of additional references, please mention them in the review form. Some recent references are important for future works on the materials.	

Review Form 3

Minor REVISION comments Is the language/English quality of the article suitable for scholarly communications?	Language is suitable for communication.	
<u>Optional/General</u> comments		

PART 2:

	Reviewer's comment	Author's comment <i>(if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)</i>
Are there ethical issues in this manuscript?	<i>(If yes, kindly please write down the ethical issues here in details)</i>	We agree with all comments.
