

Review Form 3

Journal Name:	International Journal of Plant & Soil Science
Manuscript Number:	Ms_IJPSS_125787
Title of the Manuscript:	Management Of Plant Diseases With Green Synthesized Nanoparticles Using Plant Extracts
Type of the Article	Review Article

PART 1: Review Comments

Compulsory REVISION comments	Reviewer's comment	Author's Feedback <i>(Please correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)</i>
Please write a few sentences regarding the importance of this manuscript for the scientific community. Why do you like (or dislike) this manuscript? A minimum of 3-4 sentences may be required for this part.	Nanotechnology plays an important role in increasing the efficacy of different chemicals and thus helps in boosting the yield of crops. Nanoparticles have many advantageous properties such as large area-to-volume ratio, surface plasmon resonance (SPR), etc. which increase the efficiency of chemicals and decrease the losses. Different chemicals such as nano-fungicides, nano-insecticides, nano-herbicides, and other products are widely used in agriculture. So, this manuscript is important for the scientific community.	
Is the title of the article suitable? (If not please suggest an alternative title)	Yes	
Is the abstract of the article comprehensive? Do you suggest the addition (or deletion) of some points in this section? Please write your suggestions here.	Yes. I have added some comments in the manuscript file that need to be incorporated.	
Are subsections and structure of the manuscript appropriate?	Yes	
Please write a few sentences regarding the scientific correctness of this manuscript. Why do you think that this manuscript is scientifically robust and technically sound? A minimum of 3-4 sentences may be required for this part.	The paper is written describing the green synthesis of nanoparticles, factors affecting nanoparticle synthesis, methods of nanoparticle synthesis, characteristics, and mechanism of action of nanoparticles along with various challenges and opportunities systematically. So, the manuscript is scientifically robust.	
Are the references sufficient and recent? If you have suggestions of additional references, please mention them in the review form.	Add some more references of the year 2024. Make references according to the format of the journal	

Review Form 3

Minor REVISION comments Is the language/English quality of the article suitable for scholarly communications?	Yes	
Optional/General comments	Read the guidelines of the journal and also other recent papers and make accordingly.	

PART 2:

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Are there ethical issues in this manuscript?	<i>(If yes, Kindly please write down the ethical issues here in details)</i>
