## Review Form 3

### **PART 1: Review Comments**

<b>Compulsory</b> REVISION comments	<b>Reviewer's comment</b>	<b>Author's Feedback</b> (Please correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
<b>Please write a few sentences regarding the importance of this manuscript for the scientific community. Why do you like (or dislike) this manuscript? A minimum of 3-4 sentences may be required for this part.</b>	Manuscript is crisp and easy to read. This gives a review of Wood apple on its history and importance in ancient texts, there giving essential knowledge about the origin, distribution and habitat.	
<b>Is the title of the article suitable? (If not please suggest an alternative title)</b>	The title is suitable.	
<b>Is the abstract of the article comprehensive? Do you suggest the addition (or deletion) of some points in this section? Please write your suggestions here.</b>	Abstract is inclusive.	
<b>Are subsections and structure of the manuscript appropriate?</b>	According to the title, subsections are appropriate.	
<b>Please write a few sentences regarding the scientific correctness of this manuscript. Why do you think that this manuscript is scientifically robust and technically sound? A minimum of 3-4 sentences may be required for this part.</b>	The manuscript is coherent and clearly explains origin, distribution and highlights its references in Vedas and ancient texts. The review is supported by picture and maps. Manuscript also suffices the point that Wood apple being so nutritionally packed and easily accessible still remains underutilised.	
<b>Are the references sufficient and recent? If you have suggestions of additional references, please mention them in the review form.</b>	Recent references can be added.	
<b>Minor</b> REVISION comments <b>Is the language/English quality of the article suitable for scholarly communications?</b>	Language can be improved.	
<b>Optional/General</b> comments	<ul style="list-style-type: none"> <li>The manuscript provides valuable insights on uses of the fruit, but it would greatly benefit from a discussion of its medicinal properties. Incorporating details about the phytochemical compounds and their therapeutic effects, along with specific studies or practices, would enhance the scientific rigor and relevance of the work.</li> <li>Commonly, the <i>F. limonia</i> genus of wood apple has three common varieties grown in different parts of India i.e. Thar Gaurav, Ellora and Dharwar. Cover other varieties too.</li> <li>A conclusion should be written to summarize the manuscript.</li> </ul>
