Please write a few sentences regarding the importance of this manuscript for the scientific community. Why do you like (or dislike) this manuscript? A minimum of 3-4 sentences may be required for this part.	The research area addressed in this manuscript is of significant relevance, particularly in the context of a global landscape where youth are increasingly drawn to information technology (IT) careers. Despite the growing demand for agricultural innovation and sustainability, there remains a noticeable trend of underrepresentation of young individuals in the agricultural sector.	
Is the title of the article suitable? (If not please suggest an alternative title)	Well suitable	
Is the abstract of the article comprehensive? Do you suggest the addition (or deletion) of some points in this section? Please write your suggestions here.	The abstract of article id comprehensive but request to add two line of significance of the research topic or area of research.	
Are subsections and structure of the manuscript appropriate?	Appropriate.	
Please write a few sentences regarding the scientific correctness of this manuscript. Why do you think that this manuscript is scientifically robust and technically sound? A minimum of 3-4 sentences may be required for this part.	This manuscript is scientifically robust due to its rigorous mixed-methods approach, which combines both quantitative and qualitative data collection. The high-reliability coefficient of 0.89 for the questionnaires underscores the consistency of the data. Additionally, purposive sampling and the inclusion of key informants provide a comprehensive perspective on the challenges faced by youth farmers. The thorough analysis of both quantitative and qualitative data reinforces the findings about the importance of accessible agricultural information.	
Are the references sufficient and recent? If you have suggestions of additional references, please mention them in the review form.	The author has used a recent article for reference and that is more than enough but recommended to arrange the according to the journal guidelines.
