Journal Name:	Asian Journal of Environment & Ecology
Manuscript Number:	Ms_AJEE_125606
Title of the Manuscript:	The Role of Organic Amendments and Their Impact on Soil Restoration: A Review
Type of the Article	Review Article

Review Form 3

PART 1: Review Comments

Compulsory REVISION comments	Reviewer's comment	Author's Feedback <i>(Please correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)</i>
Please write a few sentences regarding the importance of this manuscript for the scientific community. Why do you like (or dislike) this manuscript? A minimum of 3-4 sentences may be required for this part.	Review article titled 'The Role of Organic Amendments and their Impact on Soil Restoration: A Review' contains a comprehensive and in-depth text on the field chosen. It embodies work carried out by various authors in relevant areas. This article will be useful for research scholars, experts, scientists etc. working in the field of soil science and allied fields and will be equally valuable for general readers.	
Is the title of the article suitable? (If not please suggest an alternative title)	'The Role of Organic Amendments and their Impact on Soil Restoration: A Review' is suitable for the manuscript.	
Is the abstract of the article comprehensive? Do you suggest the addition (or deletion) of some points in this section? Please write your suggestions here.	The abstract is sufficient to give an idea of the concept.	
Are subsections and structure of the manuscript appropriate?	Subsection and structure of the manuscript is almost appropriate. Numbering of the section and subsections shall be checked carefully. For example, 2.2 is repeated and 2.3 is missing from its order. Some figures and illustrations if added in the MSS will certainly improve the quality of the article. More precise caption shall be given to Table.1 In section 2.2.2, name of few of the heavy metals may be mentioned. Similarly in section 2.3.2, it would be appropriate to mention some of the microbial species.	
Please write a few sentences regarding the scientific correctness of this manuscript. Why do you think that this manuscript is scientifically robust and technically sound? A minimum of 3-4 sentences may be required for this part.	Author/(s) have taken care of all due technical and scientific prerequisite for preparing the review article. Subject chosen for review article is of contemporary interest. Issues taken for article are arranged well in order. Authors have tried to collect scattered information and bring together these pieces of knowledge in a single transcript.	
Are the references sufficient and recent? If you have suggestions of additional references, please mention them in the review form.	Almost all the references are of the year 2019 or earlier than 2019, few of the references after the year 2019 shall be cited. Reference no. 67 is not found in the text. Please check all the references and citations carefully.	
Minor REVISION comments Is the language/English quality of the article suitable for scholarly communications?	The language/English quality of the article is suitable for scholarly communications.	
Optional/General comments	To the best of my observation, I haven't seen any competing interest issue in this manuscript.
