

Review Form 3

Journal Name:	International Journal of Environment and Climate Change
Manuscript Number:	Ms_IJECC_125398
Title of the Manuscript:	"Runoff Dynamics and Soil Erosion Assessment: A SWAT Model Approach for the Upper Cauvery River Basin"
Type of the Article	Original Research Article

Review Form 3

PART 1: Review Comments

Compulsory REVISION comments	Reviewer's comment	Author's Feedback (Please correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Please write a few sentences regarding the importance of this manuscript for the scientific community. Why do you like (or dislike) this manuscript? A minimum of 3-4 sentences may be required for this part.	This manuscript very important if it changed to ground in the study area. Because currently, in the world climate change and soil erosion are prolonged and affected many countries. Therefore, identifying or assessment soil erosion area and their relation with runoff is better to overcome this problems.	
Is the title of the article suitable? (If not please suggest an alternative title)	No, It is better to write the title as "Runoff Dynamics and Soil Erosion Assessment Using A SWAT Model at Upper Cauvery River Basin"	
Is the abstract of the article comprehensive? Do you suggest the addition (or deletion) of some points in this section? Please write your suggestions here.	Yes, but it should not write like "this study" and better to include main runoff factor	
Are subsections and structure of the manuscript appropriate?	yes	
Please write a few sentences regarding the scientific correctness of this manuscript. Why do you think that this manuscript is scientifically robust and technically sound? A minimum of 3-4 sentences may be required for this part.	It follows scientific methods and very important for the community around that area since it is main issues as described in the problem statements or introduction part. If he /she put this research to the ground, definitely solve the problems in that area.	
Are the references sufficient and recent? If you have suggestions of additional references, please mention them in the review form.	Yes.. he used recent references. But it should be more preferable if it is indexed journal	
Minor REVISION comments		
Is the language/English quality of the article suitable for scholarly communications?	yes	
Optional/General comments		
	The legend and grid from the graph are not visible. It is difficult to read it. So, better to increase their font size.	

PART 2:

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Are there ethical issues in this manuscript?	<u>(If yes, Kindly please write down the ethical issues here in details)</u>
