

Review Form 3

Journal Name:	Asian Journal of Advanced Research and Reports
Manuscript Number:	Ms_AJARR_125894
Title of the Manuscript:	Characteristics of Hydroxyapatite (HAp) from Cattle Bone Waste Using the Precipitation Method
Type of the Article	Research Article

PART 1: Review Comments

<u>Compulsory</u> REVISION comments	Reviewer's comment	Author's Feedback <i>(Please correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)</i>
Please write a few sentences regarding the importance of this manuscript for the scientific community. Why do you like (or dislike) this manuscript? A minimum of 3-4 sentences may be required for this part.	It's indeed a novel idea to produce hydroxy apatite from cattle bones which would have otherwise been wasted. The manuscript describes the appropriate method to extract hydroxy apatite from cattle bones and also characterizes the same based on X-ray diffraction & SEM. That's really interesting.	
Is the title of the article suitable? (If not please suggest an alternative title)	Appropriate and suitable	
Is the abstract of the article comprehensive? Do you suggest the addition (or deletion) of some points in this section? Please write your suggestions here.	Abstract of the article is comprehensive and provides the gist of the experiment very meaningfully. The terms XRD and SEM may be presented in the expanded form.	
Are subsections and structure of the manuscript appropriate?	The subsections are appropriate and adequate to convey the findings of the experiment.	
Please write a few sentences regarding the scientific correctness of this manuscript. Why do you think that this manuscript is scientifically robust and technically sound? A minimum of 3-4 sentences may be required for this part.	Although simple, the experiment has been meticulously planned and the results can be extrapolated for commercial purpose. Synthesis of hydroxy apatite from cattle bones could pave way for several entrepreneurial activities in the study area and serve as an income generating activity.	
Are the references sufficient and recent? If you have suggestions of additional references, please mention them in the review form.	The references are sufficient and up to date. More recent abstracts on the synthesis & characterization of hydroxy apatite, if available may be included.	
<u>Minor</u> REVISION comments		
Is the language/English quality of the article suitable for scholarly communications?	The language used in the article is simple, self-explanatory and suitable for scholarly communications. The quality of English is up to the mark & satisfactory.	
<u>Optional/General</u> comments	The article is worth for publishing.	

Review Form 3

PART 2:

	Reviewer's comment	Author's comment <i>(if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)</i>
Are there ethical issues in this manuscript?	<i>(If yes, Kindly please write down the ethical issues here in details)</i>
