

Review Form 3

Journal Name:	Asian Journal of Fisheries and Aquatic Research
Manuscript Number:	Ms_AJFAR_125440
Title of the Manuscript:	Population dynamics of Nile Tilapia (<i>Oreochromis niloticus</i> , L. 1758) in Lake Nubia, Sudan.
Type of the Article	Full length research paper

Review Form 3

PART 1: Review Comments

<u>Compulsory</u> REVISION comments	Reviewer's comment	Author's Feedback <i>(Please correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)</i>
Please write a few sentences regarding the importance of this manuscript for the scientific community. Why do you like (or dislike) this manuscript? A minimum of 3-4 sentences may be required for this part.	<ul style="list-style-type: none"> 	
Is the title of the article suitable? (If not please suggest an alternative title)	<ul style="list-style-type: none"> Yes 	
Is the abstract of the article comprehensive? Do you suggest the addition (or deletion) of some points in this section? Please write your suggestions here.	<ul style="list-style-type: none"> It has highlighted all the important points. On the basis of the current results, I would like to suggest the corresponding author to conduct the 3 year study to get more detailed data. 	
Are subsections and structure of the manuscript appropriate?	<ul style="list-style-type: none"> Yes 	
Please write a few sentences regarding the scientific correctness of this manuscript. Why do you think that this manuscript is scientifically robust and technically sound? A minimum of 3-4 sentences may be required for this part.	<ul style="list-style-type: none"> The study highlights several critical points regarding sustainable harvesting practices. First and foremost, it underscores the importance of continuous monitoring and management strategies. Implementing these practices can significantly reduce the harvesting of smaller individuals, which is essential for maintaining ecological balance. In doing so, it can enhance productivity and ultimately achieve optimal sustainable yield, ensuring that our natural resources are preserved and utilized to support long-term viability. 	
Are the references sufficient and recent? If you have suggestions of additional references, please mention them in the review form.	<ul style="list-style-type: none"> The recent references have been cited in the manuscript. However, some old references are there that need to be replaced. 	
<u>Minor</u> REVISION comments		
Is the language/English quality of the article suitable for scholarly communications?	Minor revision	
<u>Optional/General</u> comments	n/a
