

Review Form 3

Journal Name:	Asian Journal of Research in Botany
Manuscript Number:	Ms_AJRIB_125779
Title of the Manuscript:	Assessment of Grass Composition and Distribution Pattern on Pipeline Right- of-Way in Bayelsa State and its Potential Use for Dominant Grazers
Type of the Article	

PART 1: Review Comments

Compulsory REVISION comments	Reviewer's comment	Author's Feedback <i>(Please correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)</i>
Please write a few sentences regarding the importance of this manuscript for the scientific community. Why do you like (or dislike) this manuscript? A minimum of 3-4 sentences may be required for this part.	Overall the manuscript is important as the assessment gives the information about the diversity and frequency of plant species of a specific region which help to grow production of grazers as well as control grazing of a specific species to keep balance in the ecosystem.	
Is the title of the article suitable? (If not please suggest an alternative title)	Title is too long and vague. It may be as: Study of Grass diversity in Bayelsa State and its importance for Dominant Grazers	
Is the abstract of the article comprehensive? Do you suggest the addition (or deletion) of some points in this section? Please write your suggestions here.	Abstract is satisfactory but nothing is described about the topography and climate of the studied region. Before describing the diversity of plant species the information about climate, rainfall, topography, altitude etc should be given for better understanding of the diversity.	
Are subsections and structure of the manuscript appropriate?	Structure is ok	
Please write a few sentences regarding the scientific correctness of this manuscript. Why do you think that this manuscript is scientifically robust and technically sound? A minimum of 3-4 sentences may be required for this part.	As the topic is about plant species and their importance for grazers but in discussion nothing is described about importance of species for grazers so it is mandatory to write about dominant grazers and their use of food. as title of manuscript should match the body of manuscript. so there should be addition in this.	
Are the references sufficient and recent? If you have suggestions of additional references, please mention them in the review form.	Some references are not up to date	
Minor REVISION comments		
Is the language/English quality of the article suitable for scholarly communications?	Simple language is used	
Optional/General comments	Minor changes are advised of better quality of this work	

Review Form 3

PART 2:

	Reviewer's comment	Author's comment <i>(if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)</i>
Are there ethical issues in this manuscript?	<i>(If yes, Kindly please write down the ethical issues here in details)</i>
