Journal Name:	<a href="#">Asian Journal of Research and Reports in Urology</a>
Manuscript Number:	Ms_AJRRU_125623
Title of the Manuscript:	<b>Prevalence and Antimicrobial Resistance in Bacteria from Seminal Microbiota of Males Undergoing Evaluation for Infertility: A Cross-sectional Study in Port Harcourt, Nigeria</b>
Type of the Article	

**Review Form 3**

**PART 1: Review Comments**

<b>Compulsory</b> REVISION comments	<b>Reviewer's comment</b>	<b>Author's Feedback</b> (Please correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Please write a few sentences regarding the importance of this manuscript for the scientific community. Why do you like (or dislike) this manuscript? A minimum of 3-4 sentences may be required for this part.	The manuscript highlights the causes of infertility and antimicrobial resistance. A retrospective study was conducted on many individuals to find out these causes. Such data will be helpful to the scientific community in finding out prevalent bacteria in that region and possible reasons of resistance and thereafter treatment if any.	
Is the title of the article suitable? (If not please suggest an alternative title)	Prevalence of bacteria in Seminal Microbiota of Males Undergoing Evaluation for Infertility and Antimicrobial Resistance: A Cross-sectional Study in Port Harcourt, Nigeria	
Is the abstract of the article comprehensive? Do you suggest the addition (or deletion) of some points in this section? Please write your suggestions here.	Somewhere symbol of percentage missing/somewhere the figures of percentage incorrect.	
Are subsections and structure of the manuscript appropriate?	Yes But Table 3 has not been described appropriately in the text. Page no 7 some reframing of the sentences are required. Table 1 data is mismatched with total number as highlighted in the text. Table 3 is totally confusing and has to be described in detail. What are these numbers meant for? Abbreviations has to be spelled in full form at the end.	
Please write a few sentences regarding the scientific correctness of this manuscript. Why do you think that this manuscript is scientifically robust and technically sound? A minimum of 3-4 sentences may be required for this part.	It reports the prevalence of bacteria in semen samples and antimicrobial resistance. It presented the data and outcomes of the study in a presentable manner.	
Are the references sufficient and recent? If you have suggestions of additional references, please mention them in the review form.	Please use the uniform style of citation as per the journal. Somewhere names of journals appear in full at other places in abbreviated forms.	
<b>Minor</b> REVISION comments		
Is the language/English quality of the article suitable for scholarly communications?	Yes, spelling mistakes need to be corrected.	
<b>Optional/General</b> comments	The manuscript can be accepted with revision so that it can be worth appearing in the journal. All values and percentages be checked again and presented in a clear manner.	

**PART 2:**

	<b>Reviewer's comment</b>	<b>Author's comment</b> (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Are there ethical issues in this manuscript?	<i>(If yes, Kindly please write down the ethical issues here in details)</i>
