

### Review Form 3

Journal Name:	<a href="#">Asian Journal of Soil Science and Plant Nutrition</a>
Manuscript Number:	Ms_AJSSPN_125643
Title of the Manuscript:	The Impact of Integrated Nutrient Management Practices on Land Productivity, Crop Residue Decomposition and Abundance of Soil Organisms in a Banana Plantation in Sri Lanka
Type of the Article	Original Research Article

#### **PART 1:** Review Comments

<b>Compulsory</b> REVISION comments	Reviewer's comment	Author's Feedback <i>(Please correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)</i>
Please write a few sentences regarding the importance of this manuscript for the scientific community. Why do you like (or dislike) this manuscript? A minimum of 3-4 sentences may be required for this part.	The importance of the research is as follows: 1. This manuscript is considered a scientific reference for researchers after its publication. 2. It somewhat reduces the cost of production by using poultry manure farm outputs as inputs in banana production. 3. It is considered an approach to applying the principles of sustainable agricultural development.	
Is the title of the article suitable? (If not please suggest an alternative title)	I suggest that the title be as follows : Evaluation the Impact of Integrated Nutrient Management Practices on Land Productivity, Crop Residue Decomposition and Abundance of Soil Organisms in a Banana Plantation in Sri Lanka.	
Is the abstract of the article comprehensive? Do you suggest the addition (or deletion) of some points in this section? Please write your suggestions here.	Yes , the abstract of the article is comprehensive .	
Are subsections and structure of the manuscript appropriate?	Yes , the subsections and structure of the manuscript are appropriate.	
Please write a few sentences regarding the scientific correctness of this manuscript. Why do you think that this manuscript is scientifically robust and technically sound? A minimum of 3-4 sentences may be required for this part.	I think that this manuscript is scientifically robust and technically sound for the following reasons: 1. It addresses the problem of disposing of poultry waste and banana plant residues of leaves and branches. 2. These wastes, whether of plant or animal origin, are considered a habitat for the sustainability of the life of microorganisms that decompose them to gain energy. 3. These applications are eco-friendly and enhance the implementation of the sustainable agriculture program.	
Are the references sufficient and recent? If you have suggestions of additional references, please mention them in the review form.	Yes, the references are sufficient and recent.	

### Review Form 3

Minor REVISION comments		
Is the language/English quality of the article suitable for scholarly communications?	Yes , the language / English quality of the article is suitable for scholarly communications.	
Optional/General comments	I suggest conducting more such this research and encouraging the use of organic fertilizers in agricultural production and refraining from using chemical fertilizers, as this procedure is eco-friendly, low-cost, and protects the ecosystem from pollution.	

### **PART 2:**

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Are there ethical issues in this manuscript?	<i>(If yes, Kindly please write down the ethical issues here in details)</i>
