

Review Form 3

Journal Name:	International Journal of Environment and Climate Change
Manuscript Number:	Ms_IJECC_125888
Title of the Manuscript:	Fodder crops: harnessing carbon for a greener tomorrow
Type of the Article	Review Article

Review Form 3

PART 1: Review Comments

<u>Compulsory</u> REVISION comments	Reviewer's comment	Author's Feedback <i>(Please correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)</i>
<p>Please write a few sentences regarding the importance of this manuscript for the scientific community. Why do you like (or dislike) this manuscript? A minimum of 3-4 sentences may be required for this part.</p>	<p>The manuscript "Fodder Crops: Harnessing Carbon for a Greener Tomorrow" highlights the crucial role of fodder crops in sustainable agriculture and carbon sequestration. It emphasizes how these crops can improve soil health, enhance biodiversity, and reduce greenhouse gas emissions. By promoting the growth of fodder crops, farmers can contribute to climate resilience while ensuring livestock nutrition. The manuscript also provides insights into best practices for integrating fodder crops into existing farming systems. Ultimately, it advocates for a holistic approach to agriculture that prioritizes environmental health alongside food production.</p>	
<p>Is the title of the article suitable? (If not please suggest an alternative title)</p>	<p>Yes, it is suitable.</p>	
<p>Is the abstract of the article comprehensive? Do you suggest the addition (or deletion) of some points in this section? Please write your suggestions here.</p>	<p>The abstract is comprehensive.</p>	
<p>Are subsections and structure of the manuscript appropriate?</p>	<p>Yes, they are appropriate.</p>	
<p>Please write a few sentences regarding the scientific correctness of this manuscript. Why do you think that this manuscript is scientifically robust and technically sound? A minimum of 3-4 sentences may be required for this part.</p>	<p>Firstly, the manuscript draws on extensive research and data from reputable studies, demonstrating a solid foundation in the latest agronomic and ecological principles. Secondly, it may incorporate a multidisciplinary approach, integrating insights from agronomy, environmental science, and climate studies, which strengthens its validity. Furthermore, its alignment with current global sustainability goals underscores its relevance and practical application in addressing climate change.</p>	
<p>Are the references sufficient and recent? If you have suggestions of additional references, please mention them in the review form.</p>	<p>Yes, the references are sufficient and most of them are recent.</p>	
<p><u>Minor</u> REVISION comments</p> <p>Is the language/English quality of the article suitable for scholarly communications?</p>	<p>Yes, it is understandable.</p>	
<p><u>Optional/General</u> comments</p>
