

Review Form 3

Journal Name:	Journal of Experimental Agriculture International
Manuscript Number:	Ms_JEAI_125434
Title of the Manuscript:	Standardization of Seed Production Technology of European Carrots in Cold Arid Trans-Himalayan Ladakh Region of India
Type of the Article	Original research article

Review Form 3

PART 1: Review Comments

Compulsory REVISION comments	Reviewer's comment	Author's Feedback (Please correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Please write a few sentences regarding the importance of this manuscript for the scientific community. Why do you like (or dislike) this manuscript? A minimum of 3-4 sentences may be required for this part.	The outcome of this work helps for quality seed production of European carrot with more productivity. Also helpful for the growers to get additional financial benefit, if harvest higher yield. New seed production windows may be identify based on this outcome and suitable variety and save the seed material by using appropriate diameter of stecklings.	
Is the title of the article suitable? (If not please suggest an alternative title)	Seed Production Technology of European Carrots in Cold AridTrans-Himalayan Ladakh Region of India	
Is the abstract of the article comprehensive? Do you suggest the addition (or deletion) of some points in this section? Please write your suggestions here.	Mention which is first season and second or next season for root and seed production respectively Two date of sowing: mention two dates of mention. Diameter : mention all diameters Two varieties: mention two varieties	
Are subsections and structure of the manuscript appropriate?	Appropriate but title of graph should be at bottom	
Please write a few sentences regarding the scientific correctness of this manuscript. Why do you think that this manuscript is scientifically robust and technically sound? A minimum of 3-4 sentences may be required for this part.	Climate is changing day by day, because of climate change, seed production technologies like selection of area/region for seed production is very important. Selection or identifying varieties suitable for seed production in the selected area is also important. Because climatic conditions plays an important role in seed production and varieties behaves differently depending upon the climatic conditions. Hence selection of research topic is very appropriate the present condition.	
Are the references sufficient and recent? If you have suggestions of additional references, please mention them in the review form. =	Recent references are required	

Review Form 3

Minor REVISION comments		
Is the language/English quality of the article suitable for scholarly communications?	Yes suitable for scholarly communication	
Optional/General comments	Some more scientific discussion is required in discussion section.	

PART 2:

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Are there ethical issues in this manuscript?	<i>(If yes, Kindly please write down the ethical issues here in details)</i>
