Title of the Manuscript:	The Silent Struggle: Addressing Post-COVID Health Challenges with Booster Doses
Type of the Article	Original Research Article

PART 1: Review Comments

Compulsory REVISION comments	Reviewer's comment	Author's Feedback <i>(Please correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)</i>
Please write a few sentences regarding the importance of this manuscript for the scientific community. Why do you like (or dislike) this manuscript? A minimum of 3-4 sentences may be required for this part.	This manuscript is significant for the scientific community as it addresses the evolving health challenges in individuals affected by post-COVID syndrome and emphasizes the role of booster doses in managing these long-term effects. It highlights the physical and mental health burdens that persist after acute infection and has the potential to shape policy decisions and encourage further studies on booster effectiveness in managing post-COVID complications.	
Is the title of the article suitable? (If not please suggest an alternative title)	Yes. The article title is suitable.	
Is the abstract of the article comprehensive? Do you suggest the addition (or deletion) of some points in this section? Please write your suggestions here.	The abstract is comprehensive.	
Are subsections and structure of the manuscript appropriate?	If Section 6, "Dicision," presents conclusions or recommendations, it could be essential. However, merging it into the Discussion section would improve flow, allowing insights on post-COVID challenges and booster doses to naturally extend from the study's findings, strengthening the manuscript's narrative and impact.	
Please write a few sentences regarding the scientific correctness of this manuscript. Why do you think that this manuscript is scientifically robust and technically sound? A minimum of 3-4 sentences may be required for this part.	The manuscript exhibits scientific rigor by comprehensively analyzing post-COVID health challenges and the role of booster doses. It employs rigorous methodology, references current studies, and provides valuable data for informed decisions in public health and clinical practice.	
Are the references sufficient and recent? If you have suggestions of additional references, please mention them in the review form.	The references are adequate for the manuscript.
