Journal Name:	Journal of Scientific Research and Reports
Manuscript Number:	Ms_JSRR_124738
Title of the Manuscript:	Spatial Distribution and Disease Incidence of Guava Wilt in the Prayagraj Region: Block and Village Survey Across Prayagraj and Kaushambi
Type of the Article	Original Article

Review Form 3

PART 1: Review Comments

<u>Compulsory</u> REVISION comments	Reviewer's comment	Author's Feedback (Please correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Please write a few sentences regarding the importance of this manuscript for the scientific community. Why do you like (or dislike) this manuscript? A minimum of 3-4 sentences may be required for this part.	The paper surveyed the distribution and occurrence of guava wilt in Pradesh. Fungal isolates were also isolated in the infected plants. Fungal isolates were then described and characterized. This study is important on assessment of guava wilt in the region, to promote awareness and to device irradiating procedures to preserve healthy guava plants	
Is the title of the article suitable? (If not please suggest an alternative title)	yes	
Is the abstract of the article comprehensive? Do you suggest the addition (or deletion) of some points in this section? Please write your suggestions here.	The abstract contains all the necessary information needed by the readers.	
Are subsections and structure of the manuscript appropriate?	Yes	
Please write a few sentences regarding the scientific correctness of this manuscript. Why do you think that this manuscript is scientifically robust and technically sound? A minimum of 3-4 sentences may be required for this part.	The paper is written scientifically however, the introduction lacks important aspects in terms of the characteristics of pathogen, factors on the occurrence of the disease, statement of significance/ objectives In the methodology, coordinates of the sites must be presented, ecological parameters must also be discussed or presented For the results it would be better if heat map is presented aside from tabular form, also make a summary table comparing the occurrence of the disease in two district For the discussions cite more recent literatures regarding the results of the paper to support your claims	
Are the references sufficient and recent? If you have suggestions of additional references, please mention them in the review form.	Literatures must be added (more recent literatures)	
<u>Minor</u> REVISION comments		
Is the language/English quality of the article suitable for scholarly communications?	yes	
<u>Optional/General</u> comments
