

Review Form 3

Journal Name:	Journal of Scientific Research and Reports
Manuscript Number:	Ms_JSRR_125215
Title of the Manuscript:	EVALUATION OF IPM MODULE FOR THE MANAGEMENT OF KEY INSECT PESTS IN CHILLIES
Type of the Article	Research Article

Review Form 3

PART 1: Review Comments

Compulsory REVISION comments	Reviewer's comment	Author's Feedback <i>(Please correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)</i>
Please write a few sentences regarding the importance of this manuscript for the scientific community. Why do you like (or dislike) this manuscript? A minimum of 3-4 sentences may be required for this part.	Pests and diseases discussed in the manuscripts has major problems associated with the chilli crop. therefore, management practices experimented in this document is focused towards eco-friendly and in a sustainable way, Which is necessary as large amount of chemicals being used in crop these days. Most of the scientific community today are trying to find a way for sustainable Agriculture produce, therefore this might be a step to achieve that goal of the future.	
Is the title of the article suitable? (If not please suggest an alternative title)	Yes	
Is the abstract of the article comprehensive? Do you suggest the addition (or deletion) of some points in this section? Please write your suggestions here.	There are some minor corrections as i pointed out in the manuscript. Write some specific key word i.e insect and pest screened in the research.	
Are subsections and structure of the manuscript appropriate?	Yes	
Please write a few sentences regarding the scientific correctness of this manuscript. Why do you think that this manuscript is scientifically robust and technically sound? A minimum of 3-4 sentences may be required for this part.	As to achieve the goal of Sustainable Agriculture, more scientific researches are need to be done like this which were focused on rebuilding the soil health, human health and nature's health. Methodology applied in this manuscript is helpful for planning the large scale mitigation strategies for different major crop pest and diseases.	
Are the references sufficient and recent? If you have suggestions of additional references, please mention them in the review form.	References are recent and well written but needs to be arranged alphabetically.	
Minor REVISION comments		
Is the language/English quality of the article suitable for scholarly communications?	Yes, but more attention is needed in discussion part. As I have observed there is no discussion is done for similar work of another scholars/ authors.	
Optional/General comments		

PART 2:

	Reviewer's comment	Author's comment <i>(if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)</i>
Are there ethical issues in this manuscript?	<u><i>(If yes, Kindly please write down the ethical issues here in details)</i></u>
