

### Review Form 3

Journal Name:	<a href="#">Microbiology Research Journal International</a>
Manuscript Number:	Ms_MRJI_125506
Title of the Manuscript:	Identification of actinomycetes that stimulate eggplant ( <i>Solanum melongena</i> ) growth in Mali
Type of the Article	Original Article

#### PART 1: Review Comments

<b>Compulsory</b> REVISION comments	Reviewer's comment	Author's Feedback <i>(Please correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)</i>
Please write a few sentences regarding the importance of this manuscript for the scientific community. Why do you like (or dislike) this manuscript? A minimum of 3-4 sentences may be required for this part.	The paper deals with the potential use of selected actinomycetes as bioinoculants with bio stimulating effect that could enhance the growth and yield of eggplant. Enzymatic and plant growth hormonelike activity of the actinomycetes were also evaluated. The study is beneficial in the field of crop production which enhances the yield of vegetables with the application of actinomyces. This would lower down the production cost while increasing the yield of the crops.	
Is the title of the article suitable? (If not please suggest an alternative title)	No. Select actinomycetes as potential biostimulant of eggplant( <i>Solanum melongena</i> L) in Mali	
Is the abstract of the article comprehensive? Do you suggest the addition (or deletion) of some points in this section? Please write your suggestions here.	It follows the journal protocol	
Are subsections and structure of the manuscript appropriate?	yes	
Please write a few sentences regarding the scientific correctness of this manuscript. Why do you think that this manuscript is scientifically robust and technically sound? A minimum of 3-4 sentences may be required for this part.	The paper was written in a scientific manner. Methods used in the study were already established and results are reliable. The parameters used were complete and the statistical design were apt for the study. In addition, the conclusion answered the proposed objectives. Other comments were included in the manuscript	
Are the references sufficient and recent? If you have suggestions of additional references, please mention them in the review form.	More recent literatures must be cited on the bio stimulant ability of actinomycetes, their bioactive constituents and other related studies.	
<b>Minor</b> REVISION comments		
Is the language/English quality of the article suitable for scholarly communications?	yes	
<b>Optional/General</b> comments		

**Review Form 3**

**PART 2:**

	<b>Reviewer's comment</b>	<b>Author's comment</b> <i>(if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)</i>
<b>Are there ethical issues in this manuscript?</b>	<i>(If yes, Kindly please write down the ethical issues here in details)</i>	

**Reviewer Details:**

Name:	<b>Mary Jhane G. Valentino</b>
Department, University & Country	<b>Central Luzon State University, Philippines</b>
