

Review Form 3

Journal Name:	South Asian Research Journal of Natural Products
Manuscript Number:	Ms_SARJNP_125191
Title of the Manuscript:	Hepatoprotective properties of Citrus aurantifolia juice and Carica papaya seed extract mixture on Carbon Tetrachloride Induced Liver Injury in Albino Rats
Type of the Article	Original Research Article

Review Form 3

PART 1: Review Comments

Compulsory REVISION comments	Reviewer's comment	Author's Feedback (Please correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Please write a few sentences regarding the importance of this manuscript for the scientific community. Why do you like (or dislike) this manuscript? A minimum of 3-4 sentences may be required for this part.	<i>Citrus aurantifolia</i> and <i>Carica papaya</i> , are commonly used in traditional medicine for the treatment of liver diseases and other various diseases. This study investigated the hepatoprotective properties of the aqueous extracts of <i>Citrus aurantifolia</i> juice and <i>Carica papaya</i> seed against carbon tetrachloride (CCl ₄)- induced hepatotoxicity with biochemistry and histomorphology as the proof. It is important for scientific community because in future more drugs can be extracted from these herbal sources.	
Is the title of the article suitable? (If not please suggest an alternative title)	Yes	
Is the abstract of the article comprehensive? Do you suggest the addition (or deletion) of some points in this section? Please write your suggestions here.	Yes	
Are subsections and structure of the manuscript appropriate?	Yes	
Please write a few sentences regarding the scientific correctness of this manuscript. Why do you think that this manuscript is scientifically robust and technically sound? A minimum of 3-4 sentences may be required for this part.	This manuscript seems to be scientifically robust and technically sound. It seems that all the standard protocols are followed including ethical guidelines for handling of animals. It also appears that the data are analysed properly and biochemical and histomorphological tests have been performed in correct way.	
Are the references sufficient and recent? If you have suggestions of additional references, please mention them in the review form. -	Yes	
Minor REVISION comments		
Is the language/English quality of the article suitable for scholarly communications?	Yes	
Optional/General comments	Please italicize all the scientific words inside the manuscript	

Review Form 3

PART 2:

	Reviewer's comment	Author's comment <i>(if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)</i>
Are there ethical issues in this manuscript?	<i>(If yes, Kindly please write down the ethical issues here in details)</i>
