#### PART 1: Review Comments

<b>Compulsory</b> REVISION comments	<b>Reviewer's comment</b>	<b>Author's Feedback</b> (Please correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
<b>Please write a few sentences regarding the importance of this manuscript for the scientific community. Why do you like (or dislike) this manuscript? A minimum of 3-4 sentences may be required for this part.</b>	The author managed to also identify the gap and the need for research about this plant as it has challenges of seed dormancy and germination. That was very great.  However, I believe that a little information added on the significance/ or value of this plant (Justification for improving germination and its establishment) with make the argument on the problem stronger.
