

Review Form 3

Journal Name:	Journal of Advances in Biology & Biotechnology
Manuscript Number:	Ms_JABB_125674
Title of the Manuscript:	Betasatellite: a hijacker of plant innate immunity
Type of the Article	Review Article

PART 1: Review Comments

Compulsory REVISION comments	Reviewer's comment	Author's Feedback <i>(Please correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)</i>
Please write a few sentences regarding the importance of this manuscript for the scientific community. Why do you like (or dislike) this manuscript? A minimum of 3-4 sentences may be required for this part.	The author has chosen a good topic ie., Betasatellites: a hijacker of plants innate immunity. At present, begomoviruses have emerged as a one of the devastating pathogen causing diseases in a wide range of crops in tropical and subtropical regions of the world. The author has given a detailed note on the role of the betasatellites in causing the viral infections and also their spread.	
Is the title of the article suitable? (If not please suggest an alternative title)	Yes	
Is the abstract of the article comprehensive? Do you suggest the addition (or deletion) of some points in this section? Please write your suggestions here.	The information given in abstract is very precise and adequate.	
Are subsections and structure of the manuscript appropriate?	Yes, the author has provided appropriate information.	
Please write a few sentences regarding the scientific correctness of this manuscript. Why do you think that this manuscript is scientifically robust and technically sound? A minimum of 3-4 sentences may be required for this part.	Generally in begomoviruses the association of betasatellites results in more severe symptoms in the plants and also affects the yield of various agricultural and horticultural crops. In the present review, detailed information about the importance of betasatellites in aggravating the role of β C1, is been furnished and also how the plants innate immunity is been masked is been discussed thoroughly.	
Are the references sufficient and recent? If you have suggestions of additional references, please mention them in the review form.		
Minor REVISION comments		
Is the language/English quality of the article suitable for scholarly communications?	Yes. Very minor corrections are needed	
Optional/General comments	-	

Review Form 3

PART 2:

	Reviewer's comment	Author's comment <i>(if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)</i>
Are there ethical issues in this manuscript?	<i>(If yes, Kindly please write down the ethical issues here in details)</i>
