

**Review Form 3**

Journal Name:	<a href="#">Asian Journal of Education and Social Studies</a>
Manuscript Number:	Ms_AJESS_125976
Title of the Manuscript:	<b>Problem-Solving Appraisals as Predictors of Mathematics Performance Among College Students</b>
Type of the Article	<b>Original Research Article</b>

**Review Form 3**

**PART 1: Review Comments**

<b><u>Compulsory</u></b> REVISION comments	<b>Reviewer's comment</b>	<b>Author's Feedback</b> <i>(Please correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)</i>
<p><b>Please write a few sentences regarding the importance of this manuscript for the scientific community. Why do you like (or dislike) this manuscript? A minimum of 3-4 sentences may be required for this part.</b></p>	<p>This manuscript is important to the scientific community as it addresses a critical gap in understanding how non-cognitive factors, such as confidence, approach-avoidance style, and personal control, influence mathematical achievement. The study provides valuable insights that could inform teaching strategies aimed at enhancing students' problem-solving skills and, ultimately, their performance in mathematics.</p>	
<p><b>Is the title of the article suitable? (If not please suggest an alternative title)</b></p>	<p>The title is suitable</p>	
<p><b>Is the abstract of the article comprehensive? Do you suggest the addition (or deletion) of some points in this section? Please write your suggestions here.</b></p>	<p>I want to suggest addition to the abstract.</p> <ol style="list-style-type: none"> <li>1. There need to indicate the research instrument for data gathering. Also, there is need to indicate if the instrument was validated and how it was tested for reliability including the reliability coefficient.</li> <li>2. Before the findings, there is a need to indicate the method of data analysis.</li> <li>3. There is need to include conclusion and recommendation(s).</li> </ol>	
<p><b>Are subsections and structure of the manuscript appropriate?</b></p>	<p>There is no need for subsections under Materials and Methods</p>	
<p><b>Please write a few sentences regarding the scientific correctness of this manuscript. Why do you think that this manuscript is scientifically robust and technically sound? A minimum of 3-4 sentences may be required for this part.</b></p>	<p>This manuscript is scientifically robust. The study employs a descriptive-correlational design, which is suitable for examining the relationships between problem-solving appraisals and mathematics performance. The use of instruments, such as the Mathematics Problem-Solving Appraisals Scale, and the application of regression analysis to identify predictors of performance further enhance its scientific rigor.</p>	
<p><b>Are the references sufficient and recent? If you have suggestions of additional references, please mention them in the review form.</b></p>	<p>The references are sufficient.</p>	
<p><b><u>Minor</u></b> REVISION comments</p> <p><b>Is the language/English quality of the article suitable for scholarly communications?</b></p>	<p>The language quality of the article is generally suitable for scholarly communications. The manuscript uses clear, formal, and precise language, which is essential for academic writing. Key concepts are well-explained, and the terminology is appropriate for the target audience within the field of education and psychology.</p>	
<p><b><u>Optional/General</u></b> comments</p>		

**Review Form 3**

**PART 2:**

	<b>Reviewer's comment</b>	<b>Author's comment</b> <i>(if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)</i>
<b>Are there ethical issues in this manuscript?</b>	<i>(If yes, Kindly please write down the ethical issues here in details)</i>	

**Reviewer Details:**

Name:	<b>Kayode Ezecheal Obafemi</b>
Department, University & Country	<b>Kwara State University, Nigeria</b>
