Title of the Manuscript:	Exploring Trait Interactions for Yield Improvement in Linseed (<i>Linum usitatissimum</i> L.): A Correlation and Path Analysis Approach
Type of the Article	Research Article

PART 1: Review Comments

<u>Compulsory</u> REVISION comments	Reviewer's comment	Author's Feedback <i>(Please correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)</i>
Please write a few sentences regarding the importance of this manuscript for the scientific community. Why do you like (or dislike) this manuscript? A minimum of 3-4 sentences may be required for this part.	Linseed is an important oilseed crop, so it is crucial to have a detailed understanding of the yield-attributing characteristics.	
Is the title of the article suitable? (If not please suggest an alternative title)	Yes	
Is the abstract of the article comprehensive? Do you suggest the addition (or deletion) of some points in this section? Please write your suggestions here.	The abstract is acceptable, except for the number of genotypes used by the author. Suggestions have been provided in the manuscript.	
Are subsections and structure of the manuscript appropriate?	Yes	
Please write a few sentences regarding the scientific correctness of this manuscript. Why do you think that this manuscript is scientifically robust and technically sound? A minimum of 3-4 sentences may be required for this part.	Highlight the practical implications of selecting specific traits like plant height and branch numbers for improving yield, particularly in commercial settings focused on flax fiber and oil production. Including a comparison with similar studies on linseed or other oilseed crops could underscore the significance and novelty of your results.	
Are the references sufficient and recent? If you have suggestions of additional references, please mention them in the review form.	Yes	
<u>Minor</u> REVISION comments		
Is the language/English quality of the article suitable for scholarly communications?	It needs some proper paraphrasing of the sentences, suggested in the manuscript	
<u>Optional/General</u> comments
