<p>Minor REVISION comments</p> <p>1. Is language/English quality of the article suitable for scholarly communications?</p>	<p>There are grammatical issues which the author needs to adjust both in the Abstract and the discussion of results.</p> <p>All through the paper, the author used the word "Area" instead of "Cultivate area of land for millet OR Area of land cultivated for millet"</p>	
<p>Optional/General comments</p>	<p>The arrangement of author's work was not properly done in that at the beginning of the Results and Discussion after he mentioned Fig. 1, he was expected to present the Figure before Table 1 which he mentioned later. The author could still re-arrange this anomaly.</p> <p>Table 2, second column should not just be Area but Area of land under cultivation of millet for clarity purpose.</p>
