

**Review Form 3**

Journal Name:	<a href="#">European Journal of Medicinal Plants</a>
Manuscript Number:	Ms_EJMP_125238
Title of the Manuscript:	Ethnopharmacological Importance of <i>Gymnema sylvestre</i>
Type of the Article	Review Article

### Review Form 3

#### **PART 1: Review Comments**

<b>Compulsory</b> REVISION comments	Reviewer's comment	Author's Feedback <i>(Please correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)</i>
Please write a few sentences regarding the importance of this manuscript for the scientific community. Why do you like (or dislike) this manuscript? A minimum of 3-4 sentences may be required for this part.	Ethnopharmacological importance of medicinal plant <i>Gymnema Sylvestre</i> though well established, the authors here described the importance of its phyto constituents. They have indicated that the plant's extract is beneficial to various diseases like obesity, diabetics ...and so on.	
Is the title of the article suitable? (If not please suggest an alternative title)	The title of the article could have been " Phytoconstituents of the medicinal plant <i>Gym Syl</i> in diseases like diabetes, obesity .. "	
Is the abstract of the article comprehensive? Do you suggest the addition (or deletion) of some points in this section? Please write your suggestions here.	May add about the purification( if any) of the phytochemicals, <i>Gymnemic acid</i> , <i>Gymnemanol</i> ..	
Are subsections and structure of the manuscript appropriate?	Structures of the phytochemicals are there in subsections, but whether any progress regarding the phytochemicals purification could have been added.	
Please write a few sentences regarding the scientific correctness of this manuscript. Why do you think that this manuscript is scientifically robust and technically sound? A minimum of 3-4 sentences may be required for this part.	The authors have described that plant extract like leaves, root extract have been used in various diseases like bacterial disesaes, obesity, diabetes etc. They might add the effect of any purified phytochemicals in any in vitro and in vivo model experiment.	
Are the references sufficient and recent? If you have suggestions of additional references, please mention them in the review form.	They might add some references(if any) after 2009-2010.	
<u>Minor</u> REVISION comments		
Is the language/English quality of the article suitable for scholarly communications?	It's okay.	
<u>Optional/General</u> comments	If they consider the above points then I think the manuscript will be interesting one.	

### Review Form 3

#### **PART 2:**

	<b>Reviewer's comment</b>	<b>Author's comment</b> <i>(if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)</i>
<b>Are there ethical issues in this manuscript?</b>	<i>(If yes, Kindly please write down the ethical issues here in details)</i>
