

**Review Form 3**

Journal Name:	<a href="#">Journal of Pharmaceutical Research International</a>
Manuscript Number:	Ms_JPRI_125795
Title of the Manuscript:	<b>Efficacy and Safety of Lebrikizumab in Atopic Dermatitis: A Systematic Review and Meta-Analysis</b>
Type of the Article	<b>Review Article</b>

**Review Form 3**

**PART 1: Review Comments**

<b>Compulsory</b> REVISION comments	Reviewer's comment	<b>Author's Feedback</b> <i>(Please correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)</i>
Please write a few sentences regarding the importance of this manuscript for the scientific community. Why do you like (or dislike) this manuscript? A minimum of 3-4 sentences may be required for this part.	This is an important study of the effectiveness of lebrikizumab treatment by referring to previous studies by meta-analysis methods	
Is the title of the article suitable? (If not please suggest an alternative title)	The title of article is suitable	
Is the abstract of the article comprehensive? Do you suggest the addition (or deletion) of some points in this section? Please write your suggestions here.	The abstract of the article is comprehensible	
Are subsections and structure of the manuscript appropriate?	The structure of the manuscript is appropriate	
Please write a few sentences regarding the scientific correctness of this manuscript. Why do you think that this manuscript is scientifically robust and technically sound? A minimum of 3-4 sentences may be required for this part.	The article needs modification of form and content. For technical changes, the text must be justified and the same font must be used for all the text. In the results the text for Table 1 and also the rest of the figure must be presented. Figures 3 to 7 need to be better presented and are not comprehensible in the text. Disussion needs to be developed further. The conclusion is too long and without perspective on the subject. References are not in alphabetical order. It is necessary to add the references of the articles used for meta-analysis test	
Are the references sufficient and recent? If you have suggestions of additional references, please mention them in the review form. =	References are not in alphabetical order. It is necessary to add the references of the articles used for meta-analysis test	
<b>Minor</b> REVISION comments  Is the language/English quality of the article suitable for scholarly communications?	English quality of the article is suitable for scholarly communications	
<b>Optional/General</b> comments
