Type of the Article	Original article

PART 1: Review Comments

Compulsory REVISION comments	Reviewer's comment	Author's Feedback <i>(Please correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)</i>
Please write a few sentences regarding the importance of this manuscript for the scientific community. Why do you like (or dislike) this manuscript? A minimum of 3-4 sentences may be required for this part.	It is interesting article especially such subject is important in developing countries.	
Is the title of the article suitable? (If not please suggest an alternative title)	The title is suitable	
Is the abstract of the article comprehensive? Do you suggest the addition (or deletion) of some points in this section? Please write your suggestions here.	There is some results in the abstract not presented in the tables or figures example the relation between awareness about family planning services and socio-demographics characteristics such as education or age...etc.	
Are subsections and structure of the manuscript appropriate?	Yes a part of the results and dissection was merged together is better to be separated.	The results should be presented as separate item followed by the discussion of the result as a separate title.
Please write a few sentences regarding the scientific correctness of this manuscript. Why do you think that this manuscript is scientifically robust and technically sound? A minimum of 3-4 sentences may be required for this part.	There is some weakness in the methodology section, first of the entire sample must be homogenous either pregnant women or Reproductive and Child Health officers. However if two of them included in the study the obtained results should presented for each group separately. It is not well known haw the awareness level was calculated. The questionnaire form was not illustrated or clarified in the methods	
Are the references sufficient and recent? If you have suggestions of additional references, please mention them in the review form. :	The references were recent accepted as anumber although there are a lot of references on this subject. The 2 nd reference (Alex-Ojei, C. A., & Sunmola, K. A. (2021). <i>BIRTH SPACING AND PARITY PROGRESSION IN NIGERIA.</i>) mentioned without the name of journal nor its number and volume.	

Review Form 3
