

Review Form 3

Journal Name:	Asian Journal of Research in Surgery
Manuscript Number:	Ms_AJRS_122510
Title of the Manuscript:	A COMPARATIVE STUDY OF STRAIN ELASTOGRAPHY WITH HISTOPATHOLOGICAL EXAMINATION FOR AXILLARY LYMPH NODE ASSESSMENT IN BREAST CANCER PATIENTS
Type of the Article	

Review Form 3

PART 1: Review Comments

<u>Compulsory</u> REVISION comments	Reviewer's comment	Author's Feedback (Please correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Please write a few sentences regarding the importance of this manuscript for the scientific community. Why do you like (or dislike) this manuscript? A minimum of 3-4 sentences may be required for this part.	Strain elastography is based on change in tissue characteristics before and after compression of the tissue using ultrasound waves. Its still in developing phase for clinical use. It needs further improvement for clinical use but it can be a game changer in near future.	
Is the title of the article suitable? (If not please suggest an alternative title)	COMPARATIVE EVALUATION OF STRAIN ELASTOGRAPHY WITH HISTOPATHOLOGICAL EXAMINATION FOR AXILLARY LYMPH NODE ASSESSMENT IN BREAST CANCER PATIENTS	
Is the abstract of the article comprehensive? Do you suggest the addition (or deletion) of some points in this section? Please write your suggestions here.	NO	
Are subsections and structure of the manuscript appropriate?	NO	
Please write a few sentences regarding the scientific correctness of this manuscript. Why do you think that this manuscript is scientifically robust and technically sound? A minimum of 3-4 sentences may be required for this part.	Since strain elastography is established technique, it can be a potential technique for clinical application. This manuscript will be a valuable evidence for this technique. It could be an example for next generation.	
Are the references sufficient and recent? If you have suggestions of additional references, please mention them in the review form. -	No	
<u>Minor</u> REVISION comments Is the language/English quality of the article suitable for scholarly communications?	<ol style="list-style-type: none"> 1. Present the objective of the study as last paragraph in introduction section. 2. Type of study should be given in methods. 3. Limitations of the study should be presented at the end of the discussion section in a paragraph. 4. Reference citations in the text should be given in numbers as superscripts at the end of full stop of the respective sentences and in references section also. 	
<u>Optional/General</u> comments	Please check sentences for punctuation, grammar, word selection and spellings again.	

Review Form 3

PART 2:

	Reviewer's comment	Author's comment <i>(if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)</i>
Are there ethical issues in this manuscript?	<i>(If yes, Kindly please write down the ethical issues here in details)</i>
