Review Form 3

PART 1: Review Comments

Compulsory REVISION comments	Reviewer's comment	Author's Feedback (Please correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Please write a few sentences regarding the importance of this manuscript for the scientific community. Why do you like (or dislike) this manuscript? A minimum of 3-4 sentences may be required for this part.	I like this review manuscript because the food we are consuming play an important role to stay health but if the food is contaminated then instead of health, this food become fatal for ones life. So, it is necessary to know the origin of food contamination and proper measurements to protect of our foods from microbial contamination	
Is the title of the article suitable? (If not please suggest an alternative title)	Title should not be in Question mar form (?), instead it should be like Review on Food contamination and sources of contamination, OR Food contamination: A study of	
Is the abstract of the article comprehensive? Do you suggest the addition (or deletion) of some points in this section? Please write your suggestions here.	Abstract needs to be revised, i.e to revisited the route of microbial contamination of food which can cause morbidity and mortality to vulnerable individuals and how to prevent it..... is ambiguous sentence. Remove and re-write the repetition of 'and' from the sentence, Unsafe foods or food contamination contribute to morbidity and mortality and the most.....	
Are subsections and structure of the manuscript appropriate?	I suggest to problem statement, Aim, Discussion and conclusion	
Please write a few sentences regarding the scientific correctness of this manuscript. Why do you think that this manuscript is scientifically robust and technically sound? A minimum of 3-4 sentences may be required for this part.	To my knowledge this review needs some tabulated data and figures to make it scientifically sound. Introduction part contain some sentences starting from bullets like style, which is not appropriate. It should be written in subheading form and in continuous manner.	
Are the references sufficient and recent? If you have suggestions of additional references, please mention them in the review form.	Correct	
Minor REVISION comments		
Is the language/English quality of the article suitable for scholarly communications?	It needs improvement to remove grammatical errors and repetition like, Unsafe foods or food contamination which contribute to morbidity and mortality commonly caused by bacteria..... this sentence has been repeated in abstract, introduction and conclusion.	
Optional/General comments	All the names of microorganisms must be italic throughout the manuscript. Keys Words must be 3 to 5. Not a single word	

PART 2:
