

Review Form 3

Journal Name:	Archives of Current Research International
Manuscript Number:	Ms_ACRI_124837
Title of the Manuscript:	EFFECT OF SUCROSE, SALICYLIC ACID (SA), SULFOSALICYLIC ACID (SSA), SILVER NANO AND AJOWAN E.O ON VASE LIFE OF SINGLE TUBEROSE (POLIANTHES TUBEROSA L.)
Type of the Article	Research article

Review Form 3

PART 1: Review Comments

Compulsory REVISION comments	Reviewer's comment	Author's Feedback (Please correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Please write a few sentences regarding the importance of this manuscript for the scientific community. Why do you like (or dislike) this manuscript? A minimum of 3-4 sentences may be required for this part.	The authors of this research have explored various chemical treatments to enhance the longevity and quality of cut tuberose, which is significant for the floriculture business.	
Is the title of the article suitable? (If not please suggest an alternative title)	The title of the experiment is appropriate and aligns well with the focus of the research article.	
Is the abstract of the article comprehensive? Do you suggest the addition (or deletion) of some points in this section? Please write your suggestions here.	The abstract could be more concise and would benefit from being rewritten for clarity and focus. Keywords should be checked and rewritten with significant words related to manuscript.	
Are subsections and structure of the manuscript appropriate?	The manuscript currently lacks subsections. Authors should add subsections to the manuscript.	
Please write a few sentences regarding the scientific correctness of this manuscript. Why do you think that this manuscript is scientifically robust and technically sound? A minimum of 3-4 sentences may be required for this part.	<ul style="list-style-type: none">• Add line numbers and page numbers throughout the manuscript for better reference.• Ensure that the full form is written first, followed by its abbreviated form (e.g., 8-HQC for 8-hydroxyquinoline citrate). This should be checked and corrected throughout the manuscript.• Use the tab key to indent the beginning of each new paragraph.• Correct the spelling of 'ajwain' throughout the manuscript.• Ensure that all sentences start with a capital letter. Check and correct this throughout the manuscript	
Are the references sufficient and recent? If you have suggestions of additional references, please mention them in the review form.	The references are sufficient and up-to-date for this article.	
Major REVISION comments Is the language/English quality of the article suitable for scholarly communications?	Yes, the language/English quality of the article suitable for scholarly communications	
Optional/General comments	The experiment was conducted thoroughly, and the manuscript is well written. However, it lacks scientific depth, particularly in the application of statistical analysis for each treatment. This is a crucial aspect when presenting data, and addressing it would greatly strengthen the study.
