

**Review Form 3**

Journal Name:	<a href="#">Asian Research Journal of Agriculture</a>
Manuscript Number:	Ms_ARJA_125713
Title of the Manuscript:	Effect of supplementation of spirulina ( <i>Spirulina platensis</i> ) on growth performance of broiler in Konkan region
Type of the Article	

### Review Form 3

#### **PART 1:** Review Comments

<b>Compulsory</b> REVISION comments	Reviewer's comment	Author's Feedback <i>(Please correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)</i>
Please write a few sentences regarding the importance of this manuscript for the scientific community. Why do you like (or dislike) this manuscript? A minimum of 3-4 sentences may be required for this part.	Non-traditional feed additives are important and somewhat modern in orientation, and Spirulina algae is considered one of the feed additives that are beneficial for growth.	
Is the title of the article suitable? (If not please suggest an alternative title)	Yes	
Is the abstract of the article comprehensive? Do you suggest the addition (or deletion) of some points in this section? Please write your suggestions here.	Yes	
Are subsections and structure of the manuscript appropriate?	Need to be modified	
Please write a few sentences regarding the scientific correctness of this manuscript. Why do you think that this manuscript is scientifically robust and technically sound? A minimum of 3-4 sentences may be required for this part.		
Are the references sufficient and recent? If you have suggestions of additional references, please mention them in the review form.	You need to add sources.	

**Review Form 3**

<p>Minor REVISION comments</p> <p><b>Is the language/English quality of the article suitable for scholarly communications?</b></p>	<p>Yes</p>	
<p><b>Optional/General</b> comments</p>	<p>1- The introduction needs to be supported by reviewing sources on spirulina algae and its use in poultry feed.</p> <p>2- The researcher did not include the diet components, its chemical composition, its protein and energy content, and the broiler hybrids used in the experiment.</p> <p>3- In discussing the results: Mentioning the reason for the decrease in feed consumption for feeds to which spirulina was added is scientifically contradictory to the results (should be changed).</p> <p>4- Changing the order of the tables so that the coefficients are horizontal and the studied traits are vertical.</p> <p>5- Raising the first section in body weight as a method of work and not mentioned in this part of the research (results and discussion).</p> <p>6- The studied traits and sources are few.</p>	

**PART 2:**

	<p><b>Reviewer's comment</b></p>	<p><b>Author's comment</b> <i>(if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)</i></p>
<p><b>Are there ethical issues in this manuscript?</b></p>	<p><i>(If yes, Kindly please write down the ethical issues here in details)</i></p>
