PART 1: Review Comments

<u>Compulsory</u> REVISION comments	Reviewer's comment	Author's Feedback <i>(Please correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)</i>
Please write a few sentences regarding the importance of this manuscript for the scientific community. Why do you like (or dislike) this manuscript? A minimum of 3-4 sentences may be required for this part.	The manuscript topic is good, but it needs better writing. The research idea found a scientific relationship between psychological state components, immunity, and natural bacteria in the intestines.	
Is the title of the article suitable? (If not please suggest an alternative title)	Yes, the topic is suitable on this article	
Is the abstract of the article comprehensive? Do you suggest the addition (or deletion) of some points in this section? Please write your suggestions here.	I suggest write addition information in methodology section of abstract	
Are subsections and structure of the manuscript appropriate?	Yes, it's good.	
Please write a few sentences regarding the scientific correctness of this manuscript. Why do you think that this manuscript is scientifically robust and technically sound? A minimum of 3-4 sentences may be required for this part.	The idea of linking a specific gene in a gut microbe to mental and immune health is a good one. Such research could indicate future pathways for finding treatments or solutions for gastrointestinal disorders like UC. I have surveyed scientific sites and Google Scholar to find similar articles or replicated results, but I did not find any!	
Are the references sufficient and recent? If you have suggestions of additional references, please mention them in the review form.	All references were good, but I suggest update reference NO. 11	
<u>Minor</u> REVISION comments Is the language/English quality of the article suitable for scholarly communications?	Need more enhancement	
<u>Optional/General</u> comments
